WELCOMING REMARKS OF CHAIRMAN

Chairman DeGerolamo welcomed those persons whose identities are set forth herein above under "Appearances".

INTRODUCE ANY COMMENTS FROM THE PUBLIC

Chairman DeGerolamo addressed the meeting and invited any comments from the Public or Press on items pertaining to today’s Agenda.

EXECUTIVE DIRECTORS REPORT

Today’s Commission meeting is taking place much earlier than normal as Memorial Day falls on May 26 this year.

While the actual voting agenda is slightly compressed because of this timing, there are several Commission operation items that warrant attention. The first of these is the little ceremony we have planned for today at the new toll plaza for the Trenton-Morrisville (Route1) Toll Bridge. At 1 p.m., the Commissioners are invited to visit the Morrisville Administration Building where a ceremonial ribbon will be cut in the first lane of the new toll plaza. The sparkling facility is a vast improvement over the previous plaza that was built at the site in 1952. There are wider lanes, and each of them is outfitted with E-ZPass electronic tolling. Three lanes also can handle cash transactions.

There are a series of additional features aimed at improving the safety of motorists and employees alike. For example, toll collectors will no longer need to cross live traffic lanes to access their work stations and there will be larger concrete barriers and impact attenuators to shield our employees from vehicular crashes.

Today’s program will include a State Police color guard, a memorabilia display, a drive-thru by a 1950s-era antique car, a time-lapse video of the new facility in action, and some vintage footage of the former toll plaza while in operation in the 1950s.

State, county and local elected officials from the two states, Commission staff, and top executives from the various firms that worked on the project will be in attendance. The ceremony also will commemorate the completion of the first stage of work on the $100 million-plus T-MTB rehabilitation and widening project. It should be a nice event.

I’m also happy to report today that the Commission’s engineering staff is now fast-tracking potential open-road tolling on the Delaware Water Gap (I-80) Toll Bridge. The Commission is beginning the procurement process for an engineering firm to perform a conceptual study and preliminary design work for open-road tolling at the bridge. This means such a system could be in place at the I-80 facility in two to three years instead of our original 2015 target date.

Finally, I would like to call your attention to an announcement we are making today regarding the pedestrian/bicycle access issue at the Milford-Montague Toll Bridge. As you may remember,
public access to the bridge’s walkway had to be suspended as part of the bridge rehabilitation project that began in February. Since then, the Commission has fielded a variety of requests to consider providing some form of alternative passage for pedestrians and bicyclists.

One of the individuals who approached the Commission is with us today. He is Michael Adsit of Milford, Pa. Mr. Adsit took up competitive bicycle racing soon after finishing chemotherapy for Non-Hodgkin’s Lymphoma. He has since become an inspiration to other bicyclists and other cancer survivors. Mr. Adsit met with staff in early April and essentially laid out the framework of a workable alternative for the Commission to consider.

The Commission’s operations division has developed a shuttle plan based loosely on his proposal. We are going to operate a shuttle service over the bridge seven days a week from 8 a.m. to 6 p.m. Shelter/canopies will be erected at designated safe areas on both sides of the bridge where bicyclists and pedestrians can congregate and wait for shuttle transportation.

The shuttle itself is to consist of a 12-person van equipped with a bicycle rack. Riders would be required to sign a waiver to take advantage of the service. We are working to have the shuttle operational on May 22 and we can later make refinements where needed. I always said the Commission would entertain a reasonable alternative that does not compromise public safety. The proposal before the Commission today meets that objective. Moreover, it would allow the Commission to once again demonstrate its intent to be a good neighbor to the various communities that host our bridge facilities up and down the river.

Ms. Colleen Klock addressed the meeting and stated that she would like to read a letter from Greg Caiola, Lower Makefield Township supervisor. Ms. Klock then read:

"Dear Chairman McCartney and Board members, Good morning. I regret that I am unable to be with you this morning representing Lower Makefield Township. I have, however, asked LMT resident and friend Colleen Klock to speak on behalf of Vice Chairman Steve Santarsiero and myself in addressing the board.

Primarily, we want to convey our collective gratitude to Mr. McCartney and Mr. Alfano for taking the time to meet with LMT representatives recently regarding sound barriers along Route 95 from Scudder Falls bridge to Rt. 332 exit. It is my understanding that the conversations were very constructive and that there has been a firm commitment to expand the scope of the sound barrier project to cover more properties than in the initial plan. We are very appreciative for your responsiveness and cooperation in addressing our concerns.

While this is clearly great news for your community, we would only ask that you continue to consider making similar improvements to the final two properties under discussion, the farm 200 yard south of the Rizzuto home and the field north of the Quarry Road overpass. I am confident that there will be LMT residents

from the affected areas at this morning's meeting to further convey their concerns.

Lastly, as the project progresses and at the appropriate time, the Lower Makefield Township Board of Supervisors looks forward to hosting a public meeting for the purpose of providing residents with an update on the status of the bridge expansion. We will remain in contact with your office to determine when this public meeting can take place.

Thank you again for allowing my letter to be read into the record. I look forward to continuing our dialogue throughout this important process.

Respectfully, Greg Caiola Chairman, Lower Makefield Township Board of Supervisors.
