**EXECUTIVE DIRECTOR'S REPORT**

# DELAWARE RIVER JOINT TOLL BRIDGE COMMISSION

Meeting of October 30, 2006

## Interstate Flood Mitigation Task Force

I am pleased to announce that the Commission has received a seat on the Delaware River Basin Flood Mitigation Task Force, which has been formed at the direction of the Commissioners of the Delaware River Basin Commission, the Governors of the four basin states and a federal representative. The task force has been charged with proposing a set of recommended measures for coordinated basin-wide flood mitigation and flood loss reduction by the end of the year, with implementation possible as early as 2007—a very ambitious schedule, but one which the task force is taking very seriously.

A Commission representative attended the first task force meeting last week, which included representation from various federal, state, and regional agencies, emergency management officials, and citizen/public interest groups. Discussion at the first meeting focused primarily on developing a consensus on primary report focus areas—falling under three broad categories of floodwater management, floodplain management, and flood warning—and various technical committees were formed to evaluate and report on these areas.

The next DRBC Flood Mitigation Task Force meeting is scheduled for Tuesday, November 14.

## Northampton Street Lighting Repairs Completed

I am happy to announce that the lights are back on at the beautiful landmark Northampton Street Toll-Supported Bridge in time for the 2006/2007 holiday season. The Commission completed several weeks ago the repairs to the lighting system for this bridge, which was damaged by the floods of April 2005 and June 2006. Repair work included the replacement of damaged and missing light fixtures and repairs to damaged wiring of the bridge lighting.

## Projects Update

In a special meeting last week, the Commission awarded the construction contract for the rehabilitation of the **Trenton-Morrisville (Route 1) Toll Bridge**. This large project will improve safety, reduce congestion, enhance toll plaza operations, mitigate noise impacts, and improve interchange access. A project highlight includes the addition of a northbound auxiliary lane. Construction is expected to begin in the upcoming weeks, once the contractor has time to mobilize his crews and order materials.

Construction work is progressing smoothly on the Riverton-Belvidere Toll-Supported Bridge rehabilitation project, flood repairs to the New-Hope Lambertville Toll-Supported Bridge, and the deck-joint repairs on the Scudder Falls Toll-Supported Bridge. Weekend construction work has been completed on Scudder Falls, with work expected to be fully completed within the next several weeks. Work at New Hope-Lambertville is also expected to be completed within the next several weeks. The Commission was fortunate to retain the services of William G. Byers, P.E. of Lenexa, Kansas, for the New-Hope Lambertville project, through our engineering design firm, Parsons-Brinckerhoff. Mr. Byers is a national expert on heat straightening repairs and is providing the Commission with special inspection and quality assurance services for the repairs to the flood-damaged truss lower chord members and roadway beam on this bridge.

# **DELAWARE RIVER JOINT TOLL BRIDGE COMMISSION**

## **Meeting of October 30, 2006**

Additionally, the Commission will be voting today on the award of the construction management and inspection contract for the Centre Bridge-Stockton Toll-Supported Bridge rehabilitation project, which is scheduled to begin construction in January.

### **CAI Funding**

The Commissioners will also be voting today to authorize additional grants under the Commission's \$40 million Compact Authorized Investments Program. The grants under consideration include a combined total of \$2.4 million for six Delaware River communities, including the Pennsylvania communities of Delaware Water Gap, New Hope, Riegelsville, and Bristol, and the New Jersey communities of Lambertville and Delaware Township. If approved, the grants will fund transportation-related improvements in these communities and would constitute the fifth round of funding under the CAI Program, which works to ease congestion and improve traffic conditions on and around Commission bridges.

### **Commission Volunteer Efforts**

I would like to thank our employees in District II for their recent volunteer efforts at Norwescap food bank in Phillipsburg. Ten employees spent several hours last week helping the food bank fill Holiday food baskets and on behalf of the Commission, I commend them for their service to the community.

### **Easton-Phillipsburg 100<sup>th</sup> Thanksgiving Day Classic Kick-Off Celebration**

The Commission will be participating in a very special kick-off celebration next month to honor the 100<sup>th</sup> Thanksgiving Day Classic, in which Easton and Phillipsburg high schools will meet on Thanksgiving Day for the 100<sup>th</sup> time on the fields of Lafayette College in one of the oldest high school sports rivalries in the U.S. This year's Thanksgiving Day game will be televised live on ESPN2. The kick-off celebration on Tuesday, November 21 at 10:00 a. m. at Riverside Park in Easton will honor former players and coaches who are now deceased, as well as the 100<sup>th</sup> game team coaches. The Commission is pleased to participate in this historic event and wish both teams good luck, as we literally serve as the "bridge" between these two long-time rivals.

**DELAWARE RIVER JOINT TOLL BRIDGE COMMISSION**

**Meeting of October 30, 2006**

**R: 1047-10-06 – ENG-02-10-06**

Chairman Mugavero addressed the Meeting and asked the Commission Members if after their review, there were any questions.

Commissioner Wiessmann addressed the Meeting and offered the following comment:

*“As we discussed in Committee, we know that this is often a structural issue in terms of when we go out for procurement relative to the extension of the contract. As a general rule, this is great because we do not have any cost addition, but staff does try to make an effort to make sure we go out ahead of the expiration of the contract. With structural issues you will always face that. While engineers are completing tasks, you have to go out and look for the next one, and that is appreciated by the Commission.”*

At the conclusion of the review, Commissioner Wiessmann moved and Commissioner Alfano seconded the adoption of the following Resolution:

**"RESOLVED**, by the Delaware River Joint Toll Bridge Commission, at it's Regular Meeting assembled this 30th day of October 2006, that the Commission, via this Resolution, authorizes the Executive Director to extend the terms of the Task Order Agreements with Louis Berger, RBA Group, Brinjac Engineering, Schoor DePalma and Maguire Group for an additional 3 months from November 30, 2006 to February 28, 2007 – Twenty-Seven (27) Months; and
