PART 3: DOCUMENTING GOOD FAITH EFFORTS

Section 2.1 REQUIREMENTS:

The Consultant / Contractor has a responsibility to make a portion(s) of the work available to IBE subconsultant / subcontractors as to facilitate and demonstrate their efforts in meeting the targets. The Consultant / Contractor submitting their Good Faith Efforts documentation to the CCD will undergo a thorough review of every document, page, website, advertisement and contact described in their Compliance Plan submittal for verification.

The CCD will review the documentation provided and determine if the Consultant / Contractor provided sufficient evidence of Good Faith Efforts. Additional costs involved in soliciting and using IBEs is not a sufficient reason for a Consultant / Contractor's failure to meet the targets, as long as such costs are reasonable. However, a Consultant / Contractor is not required to accept a higher quote from a subcontractor in order to meet the targets.

The Commission reserves the right to confirm any and all commitments and solicitations of IBEs. The Commission, at its sole discretion, reserves the right to allow the Prime Consultant / Contractor to submit additional information, after the time for submission at any time prior to award, solely for the purpose of clarifying or explaining its IBE participation arrangements and Good Faith Efforts. The sufficiency of a Consultant / Contractor's Good Faith Efforts will be evaluated by the Commission in consideration of this Policy.

Section 2.2 MINIMUM GOOD FAITH EFFORTS DOCUMENTATION REQUIREMENTS:

The CCD will consider, at a minimum, the Consultant / Contractor's efforts to do the following:

- (A) Provide interested IBE(s) with adequate information about the plans, specifications, and requirements of the contract, including addenda, in a timely manner, to assist them in responding and submitting a proposal / bid.
- (B) Negotiate in good faith with interested IBE(s) that have submitted proposals / bids to the Consultant / Contractor. An IBE that has submitted a proposal / bid to a Consultant / Contractor but have not been contacted within **five (5) business days** of submission of the proposal / bid may contact the CCD to request a meeting with the Consultant / Contractor.
- (C) Evidence of good faith negotiation includes the names, addresses, and telephone numbers of IBE(s) that were considered; a copy of the information provided regarding the plans and specifications for the work selected for subconsulting / subcontracting; and evidence as to why additional agreements could not be reached for IBE(s) to perform the work. **Bid shopping is prohibited.**
- (D) Select portions of the work to be performed by IBE(s) in order to increase the likelihood that the IBE targets will be met. This includes, where appropriate, breaking out contract work items into economically feasible units to facilitate IBE participation, even when the Consultant / Contractor might otherwise prefer to perform these work items with its own forces.

- (E) Publish solicitation notice in a local publication (i.e. newspaper, trade association publication, or via electronic/social media) that do business with IBE type Subconsultants / Subcontractors.
- (F) Use the services of available community organizations; minority / women / small / disadvantaged / veteran contractors' groups; local, state, and federal minority / women / small / disadvantaged / disabled / veteran business assistance offices; and other organizations as allowed on a case-by-case basis to provide assistance in the recruitment and placement of IBE(s).
- (G) Seek guidance from the CCD on how it can meet the target. In assessing minimum Good Faith Efforts, the CCD may consider whether the Consultant / Contractor sought assistance from the CCD on their questions related to compliance with this section.

In addition, the CCD may also consider the performance of other Consultant(s) / Contractor(s) successfully meeting the targets.

The ability or desire of a Consultant / Contractor to perform the work of a contract with its own organization does not relieve the Consultant / Contractor of the responsibility to make Good Faith Efforts.

Consultant / Contractors may reject IBE(s) as unqualified only following thorough documented investigation of their capabilities. The IBEs' membership or lack of membership in specific groups, organizations, or associations, and political or social affiliations (for example, union or non-union employee status), are not legitimate causes for the rejection or non-solicitation of proposals / bids in the Consultant's / Contractor's efforts to meet the project targets.

At a minimum, the following should be submitted to support Consultant / Contractor's Good Faith Efforts documentation (*documentation is not limited to this list*):

- ✓ Dated Facsimile logs, e-mails, and/or copies of documents sent to firms detailing who was contacted and their response. Faxes that do not go through is not considered a contact.
- ✓ Copies of written correspondence to certified firms (include names, addresses, and other identifying information)
- ✓ Dated Telephone logs with telephone numbers and responses. **Telephone contacts alone, will not be sufficient.**
- ✓ Lists and copies of letters sent by mail, hand delivered, or e-mailed

- ✓ Copies of advertisements with local newspapers, trade associations, Chambers of Commerce and/or any other public media that have relationships with IBE businesses.
