ROLL CALL

WELCOMING REMARKS OF VICE CHAIRMAN

Chairman Lavery welcomed those persons whose identities are set forth hereinabove under "Appearances".

INTRODUCE ANY COMMENTS FROM THE PUBLIC

EXECUTIVE DIRECTORS REPORT

Joseph Resta, Executive Director, addressed the meeting and said;

"While we are nearing the countdown mode to the end of 2016, today's meeting promises to set the framework for the Commission's anticipated activities in 2017

"Front and center is the 2017 operating budget. This fiscal plan reflects a modest increase over 2016 expenditures and is reflective of the Commission's needs for next year. Our next 2017-2018 capital plan also is on today's agenda. As with prior capital plans, this one budgets the funds to carry out our various construction projects and capital purchases; it is the blueprint for our Engineering Department's activities. The various design and construction contracts for

DELAWARE RIVER JOINT TOLL BRIDGE COMMISSION

Meeting of December 19, 2016

individual projects will still require review and consent by Commissioners in specific resolution votes. Both the operating and capital budgets are the culmination of months of preparation and review by staff and Commissioners. There are a lot of people to credit, but I particularly want to acknowledge the Accounting Department for compiling the operating budget and making all the refinements that arose during the review process. On the capital budget, I would like to acknowledge the Engineering Department for its efforts on the Capital Plan and Program. Finally, I want to thank the Commissioners for their attention and hard work in this budget cycle. Our Commissioners serve without compensation and it takes an extraordinary amount of time on their part to pour over the various budget iterations, the corresponding spread sheets, and the array of back- up documents.

“As previously mentioned, passage of the new capital plan further positions us to keep moving the Scudder Falls project forward, several other preparatory milestones still need to be passed before major construction begins. First and foremost, we still need to complete the procurement process for a project contractor. The bid submittal date has been extended to January 10 and we remain optimistic of a highly competitive outcome. We also need to complete the process for securing project financing. In the wake of the January 10 date for opening bids, we will be setting a schedule for issuance and sale of bonds to carry out the project. This will consist of dates to provide information to investor community, as well as set the pricing of the bonds and finally close out the financial transaction. We and the finance team remain committed to completing this process in the soonest possible timeframe and be best prepared to conduct the bond sale under favorable market conditions. Meanwhile, out in the field, advance project activities continue to move along. The Stage 2 tree cutting work along the immediate New Jersey and Pennsylvania approaches reached substantial completion as scheduled on Friday. Over the next three weeks, we expect the contractor to complete a series of punch-list tasks such as repairing silt fencing and filtration socks, general cleanup and stabilization of cleared areas, final completion is anticipated January 6. A separate advance contract for the installation of noise walls at warranted areas of the Pennsylvania I-95 also remains underway. This work currently involves the fabrication and installation of posts and panels, with anticipated substantial completion in early May and final completion in June. The one remaining significant advance activity concerns the installation of a peregrine falcon proto- nest on an island upstream of the bridge. We are in the process of obtaining a variety of permits from state and federal agencies to advance this work once river levels rise to normal levels after the region’s recent drought. Our overriding goal both behind the scenes and out in the field is to get all of various preparatory task completed so the main construction project can be fully underway during the first half of 2017.

STATISTICAL SUMMARY OF EXPENDITURES

This includes reports entitled **“Budget vs Actual”** covering the month of November 2016 and the eleven month year-to-date (“YTD”) operations of fiscal year 2016 relative to Toll Bridges, Toll Supported Bridges and Administration departments.

Total expense plus encumbrance totaled \$4,849,760 for the month of November. For the 2016 fiscal period, total expense plus encumbrances amounted to \$50,756,469 or 89.1% of the YTD operating budget.

Most of the expense line categories are within their normal line item budgets. Currently, EZPass operating expense is running \$343,343 above the year-to-date operating line budget. This increase is mainly due to larger than anticipated increases in EZPass traffic.

There were no unusual expenses or charges during the month.

ELECTRONIC TOLL COLLECTION PROGRAM
MONTH OF NOVEMBER 2016

The following items were recently initiated, accomplished or performed during the above noted month:

Activities for the In-Lane Toll System

1. Xerox and TransCore continue to perform preventative maintenance for the electronic toll collection system and violation enforcement system. Commission Staff met with Xerox and TransCore to review maintenance activity for the month.
2. Xerox provided a list of existing equipment that will be removed from the lanes as the new electronic toll collection system is installed. This list may be shared with other IAG agencies to see if there is a need for this equipment after we replenish our spare parts inventory. Commission staff is working with Xerox to determine where to store the existing toll equipment as it is removed from the lanes.
3. TransCore is revising the engineering design package, Disaster Recovery Plan and the Maintenance Plan to address review comments. TransCore continues to facilitate bi-weekly project status meetings and we will transition to weekly meetings during the installation phase of the project.
4. TransCore continues completed the tuning and equipment setup at the Delaware Water Gap Toll Bridge open road tolling (ORT) and the Factory Acceptance Test and Onsite First Installation Testing. TransCore also completing the Onsite First Installation Testing at the New Hope – Lambertville Toll Bridge. They are now working to address the punch list items.
5. Advanced system installation work was completed at the Milford-Montague and Portland-Columbia Toll Bridges. This included the removal of the existing treadle frame and placing a new concrete roadway slab in each of the toll lanes. To minimize lane down time, an accelerated concrete was used. Once the concrete reached the allowable strength to open the lane to traffic, TransCore is installed temporary surface mounted treadle strips that work with the legacy electronic toll system to return the lane to operation.
6. TransCore and Commission Staff conducted a one day lane opening with the new system at the New Hope-Lambertville Toll Bridge, Lane 2. This soft opening allowed Commission Staff to work directly with the system and gain firsthand

Meeting of December 19, 2016

experience. TransCore is addressing items that were observed during this soft opening.

7. Transitioning of Lane 1 at the New Hope-Lambertville Toll Bridge is underway.
8. Training for the Toll Collectors, Officers-in-Charge, Bankers, Superintendent and Assistant Superintendent from District 3 is underway. Additionally, access to the electronic toll collection system has been provided to all necessary Commission Staff.

Activities for the E-ZPass Customer Service Center/Violation Processing Center

1. The design of the new NJ Customer Service Center (CSC) is on-going. The New Jersey Turnpike Authority (NJTA), as the lead agency, is facilitating all meetings with the other agencies and Xerox. The new CSC was expected to go live in February 2017, this date was changed to June 2017.

General Electronic Toll Collection Program Activities

1. Mr. Stracciolini participated in the IAG E-ZPass Executive Management Committee meeting and Policy Committee meetings.
2. Mr. Stracciolini served on the Non-toll Opportunities subgroup for the IAG. This subgroup is preparing a policy and procedure document that provides a method for the IAG to follow for non-toll opportunities, such as use of the E-ZPass transponder system at parking garages or drive-thru services.

CONTRACT COMPLIANCE REPORT INDEX

Month of November 2016

IDENTIFIED BUSINESS ENTERPRISES (IBE) PROGRAM

The Contract Compliance Program and IBE Target of 25% of the total Commission's contract award became effective on July 1, 2014. From the start of the IBE program to date, the Commissioners have awarded a total of twenty-eight (28) contracts, including four (4) Task Order Agreements with the new IBE program requirements.

STATUS UPDATES

The Contract Compliance Department researched firms from which the Commission can obtain quotes to provide a cloud-based system that would be able to provide dual services for Prevailing Wage/Certified Payrolls and Payments Verification for construction and consulting contracts participating in Identified Business Enterprise (IBE) program managed by the CCD staff. Following the identification of appropriate national firms that met the needs of the CCD, three firms were shortlisted by a technical evaluation committee, and through the Purchasing Department a Request for Quotation (RFQ) was sent to them.

In the month of December, the CCD will be ready to present a resolution to the Commission with the chosen firm that best meets the needs of the CCD to manage the compliance of the Commission's contracts.

The CCD continues to work with other Commission departments in assuring that the construction and professional services firms are working on meeting or exceeding the required 25% targets of the Commission's IBE program.

B2GNOW CONTRACT COMPLIANCE DEPARTMENT PAYROLL REPORTING SYSTEMS

Although, the CCD continues to manage and audit the payments verification of the engineering consulting firms through the services of the B2GNOW system, this firm was advised that as of the end of their contract, on December 31, 2016, the Commission will no longer utilized its services. As indicated above, these services will be obtained with the same firm that the commission contract for Prevailing Wage/Certified Payroll system.

The three reports provided below are generated using B2GNOW. These reports are: (1) the Compliance Overview Report, (2) the Primes and Subs on Active Contracts Report, and (3) the IBE Quarterly Report. These reports provide significant amount of information pertaining to the types of certified IBEs being subcontracted by the Prime firms with commission contract awards. The reports illustrate demographic and other pertinent information of each subconsultant, including: gender, ethnicity, and payments compared to the 25% Commission target.

Meeting of December 19, 2016

Community Affairs Report

November 2016

The following Community Affairs activity took place during November:

Scudder Falls Public Involvement

Participated in Public Involvement Plan status meeting with Commission and McCormick-Taylor staff, focusing on the project website and upcoming focus groups.

Assisted in review and response to messages received via the Commission and Scudder Falls project websites, as appropriate. The focus of the messages remain construction related. There have been several questions about the noise walls, regarding their locations and installation schedule. A Ewing resident has expressed ongoing concern about the removal of trees creating a safety issue. Working with Engineer Chris Rood to identify the merits of the concerns and will be contacting NJ Department of Transportation if warranted.

Easton-Phillipsburg Special Events

The number and size of special events and festivals in Easton is a challenge for traffic at the Northampton Street Bridge and its approaches. District Superintendent Shelley and Assistant Superintendent Brown have established communication with the police departments in both cities. I will be reaching out to festival organizers to offer assistance and request that the Commission receive more advance notice of future events.

Riverton-Belvidere The critical member strengthening project is complete. All affected agencies were notified of such. There was no feedback about the lane closures during the course of the project.

Upon receiving notification from Lower Mount Bethel Township of a weight restriction sign being damaged, referred same to District Maintenance Foreman Mark Dilts. Maintenance staff promptly repaired sign the same day.

DELAWARE RIVER JOINT TOLL BRIDGE COMMISSION
Meeting of December 19, 2016

Commission ESS Training

Participated in several components of the Electronic Security and Surveillance training, including a tour of the Primary Control Center at the NJ State Police Regional Operations and Intelligence Center. It was extremely beneficial to learn other aspects of Commission operations.

Fall Newsletter

The fall newsletter is nearly complete and should be ready for distribution during the first week of December.

League of Municipalities Conference

Attended the New Jersey State League of Municipalities Conference, which offered many educational and networking opportunities. Among the educational sessions I attended was "Drones; Challenges and Opportunities for Local Government," to learn how drones fit into the Commission's policy on photography. The speakers covered ways that drones are beneficial (visual inspection of structures where inspections by personnel could be dangerous or challenging) and the federal regulations concerning them. Also attended a session on Understanding Public Opinion Indicators, which covered the various means of gauging public opinion and how to interpret the results.

During the course of the conference, spent time with many Sussex, Warren and Hunterdon County officials, including NJ DOT Community Liaison Deb Hirt, Warren County Engineer Bill Gleba, Hunterdon County Freeholder Rob Walton and Phillipsburg Council President Todd Tersigni. Met and spoke with Burlington County Bridge Commission Manager of Technical Operations Stan Ozalis. Also spoke with many vendors who do business with the Commission, including WeatherWorks and several engineering firms. Met with Statewide Hispanic Chamber of Commerce of New Jersey Chairman Carlos Medina, who spoke very highly of Director of Contract Compliance Julio Guridy and the Commission's commitment to the Identified Business Enterprises program.

Misc. Community Relations:

Received a phone call from a resident in the area of the New Hope-Lambertville Rt. 202 facility, upset about overnight construction work (jack-hammering of concrete to install new system in the lanes.) Conferred with Joe Donnelly and Project Manager Charles Stracciolini. Construction schedule will be adjusted to have remaining disruptive work conducted during the day instead of overnight.

DMC SERVICES FOR MANAGEMENT AND OVERSIGHT OF FINAL DESIGN

Task Order Assignment No. C-502A-2G

AECOM's Design Management Consultant (DMC) Services are being continued under this Task Order Assignment that was authorized on January 16, 2015. The DMC services being provided under this Task Order Assignment include management and oversight of final design for the project through award of the Scudder Falls Bridge Replacement project main construction contract. The DMC Services also include support to the Commission with the following: agency coordination, ROW acquisition plan development, ROW acquisition process coordination, environmental permitting, public involvement support, and coordination of necessary agreements with outside agencies.

DELAWARE RIVER JOINT TOLL BRIDGE COMMISSION

DECEMBER 19, 2016 PROJECT STATUS REPORT

Environmental permitting agency coordination continued with the United States Army Corps of Engineers (USACE) and the Pennsylvania Department of Environmental Protection (PADEP) regarding the two (2) Joint Permit application packages for the final build condition – one (1) for PennDOT maintenance jurisdiction, and one (1) for Commission maintenance jurisdiction, as well as the USACE Permit application package. These three (3) permit application packages were submitted earlier in the year. The DMC continues to work with each of these agencies to address any comments and concerns related to the applications. The USACE issued a 30-day Public Notice for comments on the Commission's USACE application on October 18, 2016. The public notice period ended November 29, 2016. A Field Meeting is being scheduled with the various environmental agencies to inspect the proposed PA Wetlands Mitigation Site and discuss comments received during the public comment period related to the design of the wetlands site.

Coordination has also been ongoing with NJDEP – Green Acres regarding final approval of the Parkland Diversion Permit, and the draft Memorandum of Understanding (MOU) for the maintenance and operation of the NJ Pedestrian/Bicycle Facility. NJ Statehouse Commission approval of the conveyance of State lands (ROW impacts by the SFB project) was received at the June 30, 2016 Statehouse Commission meeting. The Commissioners at the September 26, 2016 Commission Meeting authorized the Executive Director to execute the MOU for the NJ Pedestrian/Bicycle Facility on behalf of the Commission. The Commission is awaiting the final MOU from the NJDEP – Green Acres for signature.

The ROW acquisition process continued during November, which included coordination between Commission staff and the Commission's NJ and PA Legal Counsel. To date, in Pennsylvania, the Commission has purchased the full properties at 1140 Woodside Road and 185 River Road, which **are not** required for construction; and, at 1149 Woodside Road, which is required for construction. In Pennsylvania, the Commission has also purchased partial easements from Lower Makefield Township; Lower Makefield Farmland Preservation; and from the Commonwealth of PA for the I-95 crossing over the PA Delaware Canal; all of which **are required** for construction. In November the Commission completed the purchase of the 10-acre property at 1199 Woodside Road, which currently hosts the I-95 Par-and-Ride lot, from Lower Makefield Township; and the adjacent, contiguous property at 1167 Woodside Road. The home will be occupied by the former owner, under a lease agreement with the Commission, until January 31, 2017. The purchase of 1199 Woodside Road is required for the Commission's near future District I Administration Building. The 1167 Parcel purchase will allow the Commission to make a direct connection from the future I-295 Park-and-Ride lot to the existing Delaware Canal park system. This connection will accommodate pedestrians and bicyclists, and meets the stipulation for same set forth in the Agreement of Sale with LMT for the 1199 Woodside Road Property. In New Jersey condemnation paperwork was submitted for a partial taking in NJ at 201 River Road, Washington Crossing, Pennsylvania.

DELAWARE RIVER JOINT TOLL BRIDGE COMMISSION

DECEMBER 19, 2016 PROJECT STATUS REPORT

DMC Staff continue to provide Resident Engineer and Construction Inspection services for the T-667A, Advanced Tree Clearing Contract. Phase 1 work began in early January and all tree cutting work was completed by March 31, 2016. The contractor remobilized in September and began Phase 2 of the tree clearing work in early October. The Phase 2 work is scheduled to be substantially complete by December 16, 2016.

The DMC continues to assist the Commission with the Responses to Contractor Inquiries and the preparation of Addenda for Contract T-668A. In addition, ongoing coordination continued with the Baker Team and the various utility companies regarding the Utility Relocation Agreements in Pennsylvania. Utility Relocation Agreements have been fully executed with Verizon PA, Comcast PA, Sunesys, and PECO Electric. Updated costs were submitted by PECO Gas for their required utility work along with a draft Service Agreement that is currently being reviewed. Due to complications on NJDOT's end in being able to develop agreements with the NJ utility companies, the Commission is moving forward in negotiating and entering into separate agreements with PSE&G and Comcast NJ for their required utility relocation work on the NJ side of the Project.

The RFP for the Construction Inspection (CI) Services associated with the Scudder Falls Bridge Replacement Project was posted on November 1, 2016. Three (3) separate CI contracts will be procured under this one RFP solicitation. The Pre-Proposal Meeting was held on November 17, 2016 with twenty (20) consultants in attendance. Proposals are due on December 14, 2016. Authorization to Negotiate is scheduled for the January 30, 2017 Commission Meeting, with award of contract scheduled for the February 27, 2017 Commission Meeting.
