**REQUEST FOR PROPOSALS:
LEGAL SERVICES – GENERAL COUNSEL**

January 7, 2022

The Delaware River Joint Toll Bridge Commission - The Commission is a bi-state agency created under a 1934 agreement between the Commonwealth of Pennsylvania and the State of New Jersey, and ratified in 1935 by the U.S. Congress in accordance with the Compact Clause to the U.S. Constitution. The Commission’s authority has been reaffirmed in court decisions and subsequent Compact supplements.

The Bridge System - The Commission owns and operates 20 bridges crossing the low-saline and non-saline portions of the Delaware River between Pennsylvania and New Jersey. The southernmost crossing is the Trenton-Morrisville (Route 1) Toll Bridge and the northernmost is the Milford-Montague (Route 206) Toll Bridge. Eight of the crossings are toll bridges. Twelve are non-toll (“toll-supported”) bridges, including two pedestrian-only spans. In addition to the bridges crossing the Delaware, the Commission owns and maintains 34 approach bridges (overpasses and underpasses) within its jurisdiction. The bi-state agency currently functions in accordance with the Compact last updated by its two jurisdictional states in 1985 and affirmed by the U.S. Congress in 1987. The agency employs approximately 400 full-time employees, the majority being toll collectors, maintenance workers, and bridge safety/security monitors. The Commission fulfills its regional transportation mission without state or federal subsidies; funding for the operation, maintenance and improvement of the Commission’s bridges and related facilities is derived solely from revenues collected at the agency’s eight toll bridges.
