I. Description, Objectives and Scope of Services

Delaware River Joint Toll Bridge Commission - The Commission is a bi-state agency created by a 1934 agreement and supplements thereto between the Commonwealth of Pennsylvania and the State of New Jersey and consented to by the Congress of the United States of America.

The Bridge System - The Commission currently owns and operates 20 bridges crossing the Delaware River between Pennsylvania and New Jersey, from the Trenton-Morrisville (Route 1) Toll Bridge to the Milford-Montague (Route 206) Toll Bridge. Seven of the bridges are toll bridges. Thirteen are non-toll (“toll-supported”) bridges, including two pedestrian-only spans. In addition to the bridges crossing the Delaware, the Commission owns and operates 34 approach bridges (overpasses and underpasses) within its jurisdiction. The commission employs approximately 350 full-time employees who are assigned to and work at these various locations. Revenues from the seven toll bridges are the only source of funds available to the Commission for maintaining the 20 river bridges, the approach structures and additional support facilities.
