### EXECUTIVE DIRECTORS REPORT

Joseph Resta, Executive Director, addressed the meeting and said;

Good morning Commissioners, please let me start my remarks by apologizing for missing the February 2022 Commission Meeting, despite being almost two days late to Dallas, Texas due to weather; I was able to attend my daughter's competitive cheerleading competition. And, for those of you who have not experienced cheer at the all-star level, please know that cheer waits for no man—so I'm thankful that Commissioners permitted my schedule to be flexible.

The Commission is weeks away from the final completion of the Scudder Falls Bridge Replacement Project and is making progress on the two locations in Morrisville and Langhorne that make up the Southern Operations and Maintenance Facilities projects. As the warm weather of spring progresses so shall the activities on these projects. Another important project is the rehabilitation of the Northampton Street Toll-Supported Bridge between Phillipsburg, NJ

### Meeting of March 28, 2022

and Easton, PA. It was 20 years ago that this bridge was rehabilitated and despite smaller maintenance projects over the years, bridges of this era at times require comprehensive rehabilitation. This project, although causing traffic delays during construction, is critical to the useful life of the facility and vital to keeping the bridge in a continued good state of repair. The Commission is working to gauge the feasibility of changes that would help mitigate traffic during construction but would encourage folks that rely on this bridge for travel to allow extra time for their trip.

Todays' Agenda includes resolutions for legal services, retirement, promotions, and appointments of new employees. We ask you for your support on these resolutions.

Thank you, Commissioners, this concludes my remarks.

Commissioner Laurenti addressed the meeting and said;

May I make a statement before you take a vote please?

Executive Director Resta addressed the meeting and said;

Yes, you may. I apologize for that. We will do roll call voting after your statement.

Commissioner Laurenti addressed the meeting and said;

Thank you. I have high expectations for legal counsel and actually. I will just state for the record, I stated this last month and I continue to feel the same. I have high expectation for legal counsel, especially given the amounts we pay for it. I believe it is important that our legal counsel have an arm's length relationship from any of the internal workings of the Commission and they provide us strictly with readings of the law. Any firm competing for our legal business, to me, cannot present individuals who involve themselves in the internal work of this Commission and particularly in appointments of Commission staff. Such interference is inappropriate, unacceptable and, in my mind, unethical. I will oppose any appointment of counsel who's engaged in that and I would urge my fellow Commissioners on both sides of the river to consider to do the same. Thank you.

Executive Director Resta addressed the meeting and said;

Thank you, Commissioner. We will restart the roll call voting.

Executive Director Resta was requested to conduct a Roll Call Vote.

#### IBE PROGRAM OVERVIEW

The Delaware River Joint Toll Bridge Commission (Commission) established an IBE Program (MBE/WBE/SBE/DBE/DsBE/VBE) with a target of 25% for all Professional Services and Construction Contracts awarded by the Commission effective July 1, 2014. To date, the Commission has awarded (73) contracts with the IBE Program requirements. Currently, there are (37) active projects and (36) completed projects.

## **IBE Program Requirements**

The Commission began using Elation Systems effective January 2017, as the online system for Payment Verification and Certified Payroll Reporting (CPR). All contracts awarded by the Commission to a Prime Consultant/Prime Contractor and their Subconsultants and Subcontractors use this service free of charge. Online training is available to vendors on how to use Elation Systems. The Contract Compliance Department and Elation Support Staff are available to assist all users.

The Contract Compliance Department (CCD) monitors, posts and reports data in regards to all payments. The CCD also reviews all Certified Payrolls submitted into Elation Systems.

### The following are all mandatory requirements:

### **Company On-Line Registration:**

- i. All Primes must register their company and activate an account in Elation Systems; and
- ii. All Primes must also ensure that all Subconsultants and Subcontractors register their company and activate an account in Elation Systems.

### **Payment Verification:**

- i. Prime Contractors must post all payments to their Subconsultants and/or Subcontractors in Elation Systems; and
- ii. Prime Contractors and their Subconsultants and/or Subcontractors must confirm all payments received in Elation Systems.

### **Certified Payroll Reporting:**

- i. All Prime Contractors are responsible for assigning someone from their staff with the responsibility to review, approve, and upload their CPR(s) on a weekly basis into Elation Systems; and
- ii. All Prime Contractors must also ensure that their Subcontractors upload their CPR(s) on a weekly basis into Elation Systems.

Prime Consultants / Contractors IBE Target performance will be displayed / available on the Commission's public website.

# **Contract Compliance Department Compliance IBE Scores Overview**

The Commission through its Contract Compliance Department has instituted a Compliance Score Ranking that will be included in the Monthly Contract Compliance Report for all Professional Services and Construction Projects.

The Compliance Score Ranking is an ongoing summary of data presented on Active and Completed contracts, which includes the tracking of payments from Prime Consultants and Contractors to IBE Subconsultants and Subcontractors, and the Prime Contractors Workforce Utilization. The Scores will illustrate the progress and participation to meet the Targets by Prime Consultants and Contractors as part of the IBE program.

The complete and timely reporting of payments and certified payrolls to the Elation Systems by the Prime Consultants and Prime Contractors, and their Subconsultants and Subcontractors, will assist the Prime Consultant and Prime Contractor in tracking the data to meet their targets.

Accordingly, each Prime will also be given a final grade at the completion of each project. Additionally, the data will be uploaded onto the Commission's public website on a monthly basis. *The Score(s) are factored using the following criteria:* 

# **IBE PAYMENTS**

The payments by the Prime Consultant / Contractor to each of their IBE Subconsultants / Subcontractors will be calculated based on the criteria set by the Commission's 25% IBE Target.

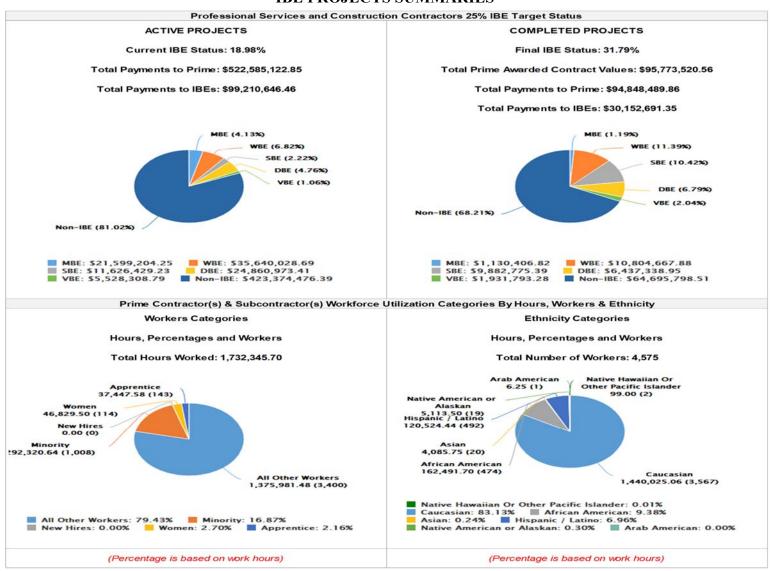

# **WORKFORCE TILIZATION**

Workforce utilization contains 2 levels of scoring and documents the hourly employee utilization by workforce type, ethnicity and gender.

## MINORITY, WOMEN AND SMALL BUSINESS ENTERPRISE PROGRAM

The Delaware River Joint Toll Bridge Commission implemented a one-year Minority Business Enterprise (MBE) pilot program, with a 7% participation goal, and the Women Business Enterprise (WBE) pilot program with a 3% goal. These goals applied to consultants and contractors' participating in the Commission's Capital Program and were effective on September 1, 2008.

At its December 2008 Commission Meeting, the Commission revised the pilot program to specify a 25% Small Business Enterprise (SBE) goal to New Jersey assigned consultant contracts in lieu of the previously specified 7% MBE and 3% WBE goals.

At its December 2010 Commission Meeting, due to the success of the Commission's MWSBE Pilot Program, the Delaware River Joint Toll Bridge Commission adopted a resolution for permanent status of the Minority Business Enterprise (MBE) program, with a 7% participation goal, and the Women Business Enterprise (WBE) program with a 3% goal, and the Small Business Enterprise (SBE) program with a 25% goal. These goals apply to consultants and contractors' participating in the Commission's Capital Program.

The Contract Compliance Department continues to monitor, update and analyze the payments for the MWSBE diversity program.

# COMMUNICATIONS REPORT February 2022

#### • COMMISSION AWARENESS EFFORTS:

Northampton Street Toll-Supported Bridge Rehabilitation Project –Updated and expanded this project's webpage on the Commission website – <a href="www.drjtbc.org">www.drjtbc.org</a>. Changes and corrections were made to the introductory section, the project schedule, and the background section. Meanwhile, a fact sheet was drafted, with Community Affairs Director Jodee Inscho designing the document after text was written. The work on the website and fact sheet was undertaken in preparation for the start of this project's protracted travel restrictions in mid-March. A rollout of the project's major construction activities will be undertaken during the second week of March.

**2021 Annual Report** – Drafted outline of report's prospective content, notably the toll adjustment and completion of the Scudder Falls Toll Bridge's second span. The outline was vetted with the executive director and chief engineer, who suggested an addition: an article on the underwater inspections conducted at the agency's bridges. As it turned out, the underwater inspections became first article to be completed for the report.

Scudder Falls Bridge Replacement Project – Completed e-Blast updating various parties on the status of the project, the remaining work tasks to be completed, and the anticipated final completion date in late May. The e-Blast was distributed by public involvement consultant McCormick Taylor with the assistance of Stokes Creative Group. A final e-Blast is planned to be issued in May or June to close out the project. A conference call/online Teams meeting was held to discuss remaining public involvement activities, notably a before-and-after project video and a possible event for the installation of a project plaque at the bridge. ### INTERNAL/EXTERNAL COMMUNICATIONS

- Recorded a total of 11,123 sessions (visits) during February for the Commission's website <a href="www.drjtbc.org">www.drjtbc.org</a>. That's a decrease from the 14,864 sessions recorded in January and the 11,519 recorded in February 2021 (active toll adjustment comment period at that time).
- One press release/travel advisory was issued in February PA Route 32 closure/detour near Scudder Falls Bridge for construction crane disassembly.
- Organized and led a conference call with media consultants Pete Peterson and Alex Styer of Bellevue Communications to discuss status of artistic renderings for the Commission's 20 bridges. Prior to call, a variety of bridge profile drawings in engineering department files were culled together and sent to Pete and Alex for transferal to the artist working on this project. The artist has prior experience producing bridge images for the Friends of the Delaware Canal in Pennsylvania.
- Attended Central Jersey Transportation Forum meeting.
- Contacted and drafted response to toll ephemera collector and writer Phil Goldstein of Texas regarding Commission's token and scrip history.

- Conveyed various Commission photographs, documents and other materials for temporary storage at New Hope-Lambertville Toll Bridge maintenance garage; these materials had been at various locations in the Trenton-Morrisville Admin Building..
- Corresponded with former Commission chief engineer Paul Peterson regarding section-front photo of the Calhoun Street Toll-Supported Bridge in the Philadelphia Inquirer; secured print version of the photo.
- Responded to Trenton City legal department attorney regarding the Trenton Makes The World Takes sign on the Lower Trenton Bridge; the image the city sought to use was not a Commission photograph.

- Responded to Stradley Ronan request regarding copyright renewal for the Trenton Makes The World Takes slogan on the Scudder Falls Toll Bridge; the copyright ensures that the slogan remains in the public domain and could potentially ward against untoward piracy or application of the slogan. The copyright renewal is being overseen by Community Affairs Director Jodee Inscho.
- Asked media consultant Alex Styer to look into duplicative and unauthorized Delaware River Joint Toll Bridge Commission pages on the Facebook platform.
- Corresponded with Bucks County bridge historian Scott Bomboy regarding 19th century covered bridges along the river.

The genesis of this was an online post with a questionable account of the bridge crossing's history. It's apparent that the Commission's webpage on this bridge needs a thorough updating.
- Corresponded with librarians at Southern Methodist University's DeGoyler Library regarding their collection of John Insley Blair papers; Blair was a richly successful 19th century businessman and railroad baron from northwest New Jersey who appears to have been the lead incorporator of the Columbia Delaware Bridge Company in 1839.

This contract is for Preliminary, Final and Post-Design Services for space utilization improvements at New Hope Lambertville Toll Bridge Executive Headquarters and the demolition and reconstruction of the Trenton Morrisville Toll Bridge Administration Building as identified under a Task Order Assignment for Space Utilization Program and Concept Study.

In accordance with the Commission's February 26, 2018 Regular Monthly Commission Meeting, this Contract was awarded to Gannett Fleming, Architects Inc. (GF). Accordingly; a Notice of Award and Limited Notice to Proceed was issued to GF effective February 27, 2018.

A Kick-Off Meeting was conducted with GF on March 20, 2018. GF is currently coordinating with all public utilities, completed the Boundary & Topographic surveys, Space Utilization Program to address the Commission's current operations and anticipated needs in the foreseeable future as well as Final Design. A Concept Design and preliminary Phasing options were submitted and presented to the Commission on 10/28/19 with an advance Contract T-730A that covers Trenton Morrisville's salt and fueling operation's needs. The purpose of this advance Contract T-730A was to complete the new salt operation at this location and have it fully operational for the winter of 2020-2021. This was being planned to take place prior to the demolition of the existing building together with the current salt operation. The second Contract T-519A was publicly bid on April 12, 2021 to cover the construction of the balance of the Southern Operations & Maintenance needs in a multi-phased construction.

An NPDES permit Pre-Application meeting was held with Bucks County Soil Conservation on September 26, 2019 in connection with the Southern Operations Facility intended to be built at Morrisville, NPDES and Erosion & Sediment Control permits were submitted on December 4, 2019 and both approvals were obtained on March 18, 2020. In addition; building systems phasing coordination meetings were conducted on 11/25/19, 12/6/19 and 12/18/19. Electronic Bids for Contract T-730A were received on March 5, 2020, Construction Contract award was made to the apparent Low Bidder's, Bracy Construction, Inc. at the April 27<sup>th</sup> Regular Monthly Meeting, Construction was substantially completed on November 6, 2020 and Project was completed on November 20, 2020 on schedule under budget. In connection with Resolution No. 4076-12-18 and the new real estate property acquisition at Langhorne to house the Commission's Southern Maintenance Facility; GF completed the Boundary and Topographic Land Surveys necessary for Lot Consolidation in Bucks County, Environmental Assessment Phase I and Phase II.

## March 28, 2022 PROJECT STATUS REPORT

A second advanced Final Design submission was made by GF on 12/2/19 for the Langhorne Site to implement the environmental remediation as listed in the Phase II report, demolition of ten (10) existing buildings and secure the site with perimeter fencing. Using one of the Commission's standing Job Order Contractor RCC Builders Contract TTS-737A-2 was executed January 22, 2020. GF provided Post Design services through-out construction and this Project was closed June 15, 2020.

As part of an NPDES permit application process for this site, screening for suspected Bog Turtles and other federally endangered species was made on June 14<sup>th</sup>, 2019 by the US Army Corp. of Engineers (ACOE) and found that the Project site does not include a Bog Turtle Habitat. In light of these results an environmental permitting pre-application meetings were held on June 20<sup>th</sup>, 2019 and January 23, 2020 with PADEP in attendance together with the US Army Corps of Engineers as relates to a joint permit for wetland and storm water impact and mitigation at this Langhorne site. Also; as a pre-requisite to obtain NPDES permit approval, a SHPO survey was made and a determination that there are no historic properties exist on site was obtained on March 24, 2020. In addition; ACOE conducted a survey on March 16th, 2020 and determined that none of their jurisdictional waters or wetlands exist on this site. Furthermore; the ACOE biologist who provided this survey agreed that the pond that exists on-site is man-made and therefore is not considered jurisdictional based on his field inspection. Additionally; two state identified endangered species were identified by the Pennsylvania Natural Diversity Inventory (PNDI) to potentially exist onsite. The design team initiated field surveys on March 13th, 2020 and field traps were placed to determine if their habitat exists within the project limits to develop a mitigation plan. Survey concluded and PNDI concurred on September 9<sup>th</sup>, 2020 that none exists within the Commission's property.

A request for site Access Easement to Big Oak Road through PECO's neighboring property was made on November 1<sup>st</sup>, 2019, conditional approval was received, and an easement agreement has been received from PECO. GF prepared the Legal Description and Plot Plan and Commission's Real Estate Counsels filed this easement with the County's Clerk's Office.

A General Permit GP-7 for minor wetland crossing was submitted on November 4, 2020 and an approval was received from PA DEP on December 22, 2020.

A Bucks County Soil Erosion and Sediment Control (SE&SC) Permit was submitted together with an NPDES Permit on August 24, 2020 and an SE&SC permit approval was received April 23, 2021. NPDES conditional approval was received on September 27, 2021 pending PADEP approval of ACT 537 Sewage Planning Module which was received November 15, 2021 to address the local sewage disposal capacity that will be exceeded due to this Project.

Constructability, Peer and Code review meetings were conducted on February 18, February 19 and February 24, 2021. Final Design submission and Bid Documents were received on April 9, 2021. Project public bid advertisement was made on April 12, 2021, virtual Pre-Bid meeting and site visits were made on April 19 and April 29, 2021 and electronic Bid Opening was
