#### **EXECUTIVE DIRECTORS REPORT**

Joseph Resta, Executive Director, addressed the meeting and said;

Good morning Commissioners, on Tuesday, November 16th, we were fortunate to have a dedication ceremony for the opening of the Scudder Falls Shared-Use Path, constructed in connection with two of our projects, the Scudder Falls Bridge Replacement and the Scudder Falls Administration Building Project(s). This 9/10ths of a mile, primarily elevated structure provides for a seamless link from our Park & Ride Facility, to the 1799 House trailhead comfort station, across the Delaware Canal to its towpath via our pedestrian bridge, and across the Scudder Falls Toll Bridge to the Delaware and Raritan Canal Towpath.

#### Meeting of November 22, 2021

This amenity, creating yet another "canal loop" for hikers, walkers, runners, and cyclists would not have been possible without the context of the larger projects of which the Shared-Use Path is a part, the toll revenue from our patrons that supports everything that we do, and the commitment of our Commissioners for these projects, decades in the making. I would like to commend our Commissioners for supporting these "once-in-a-generation" projects, and having the foresight to determine that the improvements made will endure long past our tenure here at the Commission.

As we enter the week of Thanksgiving, we give thanks to all that the Commission has accomplished, and its resilience through some difficult times. Happy Thanksgiving, safe travels.

Thank you Commissioners, this concludes my comments for today.

Commissioner Laurenti addressed the meeting and said;

Mr. Resta, maybe this would be an appropriate time to make a Comment?

Executive Director Resta addressed the meeting and said;

Yes. Please. Thank you. Commissioner Laurenti.

Commissioner Laurenti addressed the meeting and said;

It was my delight to have been part of the dedication. It really speaks to the work that we do to see the joy of the young and old as they were there to take advantage of the shared use path. And I was moved to know the progress from 1955 when Hurricane Diane had washed the bridge away, not exactly at that site, but nonetheless an important linkage. If I may, just read for the record just one paragraph that I had viewed which is. It was well-worth fighting for. I want to express particular gratitude to the Commission staff, especially in engineering, who showed how it can be done. I want to thank our partners in New Jersey and Pennsylvania, especially bike and walk advocacy groups, including Trenton Cycle Revolution, which, of course, is from my home town, for their efforts to ensure its inclusion in this place of project which is the largest in Commission's history. Executive Director Resta, yes, this is once in a generation. It is wonderful to know that there will be this asset for many generations to come and I just want to reiterate what a joy it was and I thank you and Mr. Donnelly and all others and staffing. It was just a delight and I've gotten so many comments from people, people re-posting pictures on Facebook and such and it was just great fun. Thank you so much.

Executive Director Resta addressed the meeting and said;

Thank you, Commissioner.

#### Meeting of November 22, 2021

Vice Chair Janvey addressed the meeting and said;

Facebook kind of blew up this week about the bridge with pictures. Great pictures, Joe. Great pictures. So it really warms your heart that you have been a part of something to make life so much better for people. Just wonderful.

Executive Director Resta addressed the meeting and said;

Thank you, Commissioner Janvey.

Commissioner Komjathy addressed the meeting and said;

Hey, Joe, I was honored to be there on Tuesday also and I just wanted to let you know. Thank you and your staff. You guys really put a lot of thought in to it. I was happy to see a lot of the community-based organizations that were involved. Lots of time goes to the people who usually yell at us about certain things, but this was a positive in regards to the Commission. So thank you to you and Joe and the staff, you put together a tremendous event. I know that both Dan Grace and I, you know, power walked across the bridge. I don't know about the wind maybe blew us back, but it was a great day and I want to thank Yuki also for her kind remarks, that was another proud day for the Commission.

Executive Director Resta addressed the meeting and said;

Thank you, Commissioner Komjathy.

NOTE: Total toll traffic and toll revenue for the Commission's bridges increased compared to October 2020. The traffic decreased significantly in October 2020 as a result of COVID-19 pandemic. In June 2021, both PA and NJ Governors implemented reopening plans and began to lift the restrictions on gathering. In addition, toll rate adjustments took effect on April 11<sup>th</sup>, 2021.

<sup>\* &</sup>quot;Discounts" represents rebates for commuter discounts earned when a customer crosses the Commission's bridges 16 times in a calendar month, as well as discounts for employee's, and Commission vehicle's non-revenue crossings. Starting May 2021, the communter discount rate is reduced from 40% to 20%.

## Meeting of November 22<sup>nd</sup>, 2021

### STATISTICAL SUMMARY OF EXPENDITURES

There follows reports entitled **"Budget vs Actual"** covering the month of October 2021 and the ten months year-to-date ("YTD") operations of fiscal year 2021 relative to Toll Bridges, Toll Supported Bridges and Administration departments.

Total operating expense plus encumbrance totaled \$5,777,961 for the month of October. For the 2021 fiscal period, total expense plus encumbrances amounted to \$58,077,753, which represents 91.47% of 2021 year-to-date operating budget.

In October, we transferred \$460,000 from General Contingency and \$1,367,309 from Employee Healthcare Costs to EZPass Operating Expenses. We had higher than normal EZPass Operating Expense in year 2021 due to increases in the violation processing cost and EZPass credit card fee charge. We collected more violation administration fee during the first ten months of year 2021. The EZPass toll revenue increased as a result of higher EZPass penetration rate after the toll rate adjustment.

There were no unusual expenses during the month.

# Contract Compliance Department Compliance IBE Scores Overview

The Commission through its Contract Compliance Department has instituted a Compliance Score Ranking that will be included in the Monthly Contract Compliance Report for all Professional Services and Construction Projects.

The Compliance Score Ranking is an ongoing summary of data presented on Active and Completed contracts, which includes the tracking of payments from Prime Consultants and Contractors to IBE Subconsultants and Subcontractors, and the Prime Contractors Workforce Utilization. The Scores will illustrate the progress and participation to meet the Targets by Prime Consultants and Contractors as part of the IBE program.

The complete and timely reporting of payments and certified payrolls to the Elation Systems by the Prime Consultants and Prime Contractors, and their Subconsultants and Subcontractors, will assist the Prime Consultant and Prime Contractor in tracking the data to meet their targets.

Accordingly, each Prime will also be given a final grade at the completion of each project. Additionally, the data will be uploaded onto the Commission's public website on a monthly basis. *The Score(s) are factored using the following criteria:* 

#### **IBE PAYMENTS**

The payments by the Prime Consultant / Contractor to each of their IBE Subconsultants / Subcontractors will be calculated based on the criteria set by the Commission's 25% IBE Target.

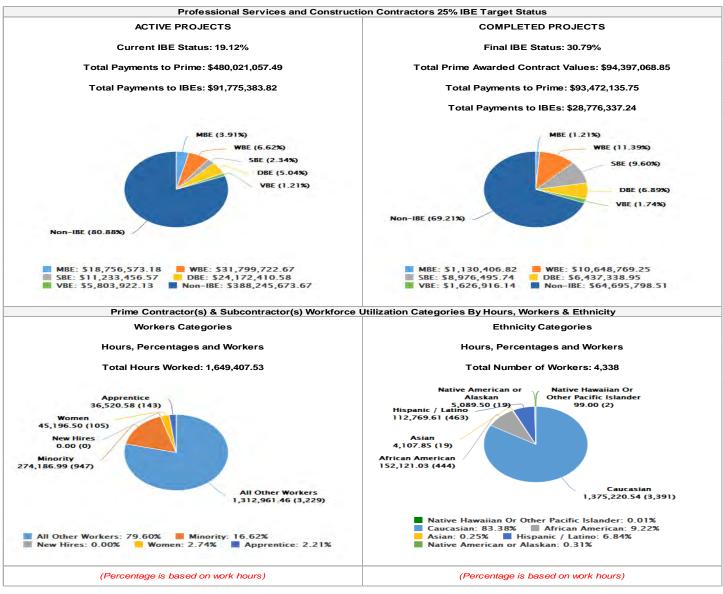

## **WORKFORCE UTILIZATION**

Workforce utilization contains 2 levels of scoring and documents the hourly employee utilization by workforce type, ethnicity and gender.

#### MINORITY, WOMEN AND SMALL BUSINESS ENTERPRISE PROGRAM

The Delaware River Joint Toll Bridge Commission implemented a one-year Minority Business Enterprise (MBE) pilot program, with a 7% participation goal, and the Women Business Enterprise (WBE) pilot program with a 3% goal. These goals applied to consultants and contractors' participating in the Commission's Capital Program and were effective on September 1, 2008.

At its December 2008 Commission Meeting, the Commission revised the pilot program to specify a 25% Small Business Enterprise (SBE) goal to New Jersey assigned consultant contracts in lieu of the previously specified 7% MBE and 3% WBE goals.

At its December 2010 Commission Meeting, due to the success of the Commission's MWSBE Pilot Program, the Delaware River Joint Toll Bridge Commission adopted a resolution for permanent status of the Minority Business Enterprise (MBE) program, with a 7% participation goal, and the Women Business Enterprise (WBE) program with a 3% goal, and the Small Business Enterprise (SBE) program with a 25% goal. These goals apply to consultants and contractors' participating in the Commission's Capital Program.

The Contract Compliance Department continues to monitor, update and analyze the payments for the MWSBE diversity program.

a) PA Assigned Professional Services Contracts: 7% MBE and 3% WBE
 b) No State Assigned Professional Services Contracts: 7% MBE and 3% WBE
 c) Capital Plan Construction Contracts: 7% MBE and 3% WBE

d) NJ Assigned Professional Services Contracts: 25% SBE

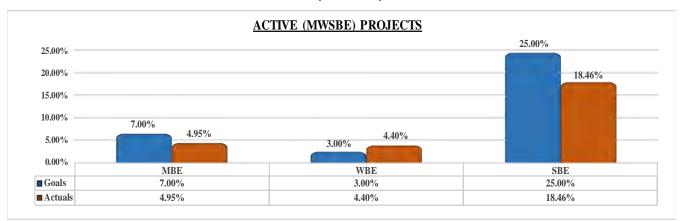

Numerous diversified businesses have benefited and continue to benefit from the Commission's previous M/W/SBE Program. The number of Contracts awarded during the MWSBE Program are as follows:

Active Projects: 5
 Completed Projects: 72
 Total Capital Program Projects: 77
 Total Number of Contractors: 180

As of July 1, 2014 projects fall into the status now commonly referred to as IBE (Identified Business Enterprise) with a projected target to be or to exceed 25% of the total project award amount.

## COMMUNICATIONS REPORT September 2021

#### • COMMISSION AWARENESS EFFORTS:

**2020 Annual Report** – Final versions of the report were reviewed and completed with edits and changes. Due to website coding, a special landscape-oriented cover was designed for consistent display of document on website. The final portrait-oriented report was uploaded and posted on the website. This style of the report was last utilized in 1990s. The report covers feature a photograph of the April 2020 joint flyover of the US Navy's Blue Angels and US Air Force's Thunderbirds with the Commission's Lower Trenton Bridge in the foreground. This coincides with the report's 2020 cover theme: "The Pandemic Year." Gathered and forwarded additional photos to complete the report. Drafted contents page photo credits text and memorandum for making final report corrections/changes.

Scudder Falls Bridge Replacement Project – Contacted the project's public involvement consultant McCormick Taylor regarding the creation of an expandable map for the partially project-related Scudder Falls Shared-Use Path facility. Scheduled and led initial planning meeting, including Bellevue Communications and designers Stokes Creative Group. The map will be constructed in two stages, with the initial line map appearing on the DRJTBC website prior to the facility's opening. Other applications for a more expansive illustrated information map have also been discussed and planned. Continued preparations for a planned four-week closure of the connector lanes between the two roundabouts at the I-295/Route 29 interchange (Exit 76) in New Jersey. E-Blast content with corresponding detour maps and provided aerial drone photos for design of the customer communication. Updated previously drafted press release accordingly. Detour maps were prepared by McCormick Taylor/Stokes Creative Group and have been uploaded to the project website for activation.

A Kick-Off Meeting was conducted with GF on March 20, 2018. Site visits continue to be conducted by the Consultant as further field investigation needs are identified. GF is currently coordinating with all public utilities, completed the Boundary & Topographic surveys at Trenton Morrisville site. Space Utilization Program to address the Commission's current operations and anticipated needs in the foreseeable future is complete. A Concept Design and preliminary Phasing options were submitted and presented to the Commission on 10/28/19 with an advance Contract T-730A that covers Trenton Morrisville's salt and fueling operation's needs. The purpose of this advance Contract T-730A was to complete the new salt operation at this location and have it fully operational for the winter of 2020-2021. This was being planned to take place prior to the demolition of the existing building together with the current salt operation. The second Contract T-519A was publically bid on April 12, 2021 to cover the construction of the balance of the Southern Operations & Maintenance needs in a multi-phased construction.

An NPDES permit Pre-Application meeting was held with Bucks County Soil Conservation on September 26, 2019 in connection with the Southern Operations Facility intended to be built at Morrisville, NPDES and Erosion & Sediment Control permits were submitted on December 4, 2019 and both approvals were obtained on March 18, 2020. In addition; building systems phasing coordination meetings were conducted on 11/25/19, 12/6/19 and 12/18/19. Electronic Bids for Contract T-730A were received on March 5, 2020, Construction Contract award was made to the apparent Low Bidder's, Bracy Construction, Inc. at the April 27<sup>th</sup> Regular Monthly Meeting, Construction was substantially completed on November 6, 2020 and Project was completed on November 20, 2020 on schedule under budget.

In connection with Resolution No. 4076-12-18 and the new real estate property acquisition at Langhorne to house the Commission's Southern Maintenance Facility; GF completed the Boundary and Topographic Land Surveys necessary for Lot Consolidation in Bucks County, Environmental Assessment Phase I and Phase II.

### November 22, 2021 PROJECT STATUS REPORT

A second advanced Final Design submission was made by GF on 12/2/19 for the Langhorne Site to implement the environmental remediation as listed in the Phase II report, demolition of ten (10) existing buildings and secure the site with perimeter fencing. Using one of the Commission's standing Job Order Contractor RCC Builders Contract TTS-737A-2 was executed January 22, 2020. GF provided Post Design services through-out construction and this Project was closed June 15, 2020.

As part of an NPDES permit application process for this site, screening for suspected Bog Turtles and other federally endangered species' was made on June 14th, 2019 by the US Army Corp. of Engineers (ACOE) and found that the Project site does not include a Bog Turtle Habitat. In light of these results an environmental permitting pre-application meetings were held on June 20th 2019 and January 23, 2020 with PADEP in attendance together with the US Army Corps of Engineers as relates to a joint permit for wetland and storm water impact and mitigation at this Langhorne site. Also; as a pre-requisite to obtain NPDES permit approval, a SHPO survey was made and a determination that there are no historic properties exist on site was obtained on March 24, 2020. In addition; ACOE conducted a survey on March 16<sup>th</sup> 2020, and determined that none of their jurisdictional waters or wetlands exist on this site. Furthermore; the ACOE biologist who provided this survey agreed that the pond that exists on-site is man-made and therefore is not considered jurisdictional based on his field inspection. Additionally; two state identified endangered species were identified by the Pennsylvania Natural Diversity Inventory (PNDI) to potentially exist on-site. The design team initiated field surveys on March 13th 2020 and field traps were placed to determine if their habitat exists within the project limits to develop a mitigation plan. Survey concluded and PNDI concurred on September 9 2020 that none exists within the Commission's property.

A request for site Access Easement to Big Oak Road through PECO's neighboring property was made on November 1 2019, conditional approval was received and an easement agreement has been received from PECO. GF prepared the Legal Description and Plot Plan and Commission's Real Estate Counsels filed this easement with the County's Clerk's Office.

A General Permit GP-7 for minor wetland crossing was submitted on November 4, 2020 and an approval was received from PA DEP on December 22, 2020

A Bucks County Soil Erosion and Sediment Control (SE&SC) Permit was submitted together with an NPDES Permit on August 24, 2020 and an SE&SC permit approval was received April 23, 2021. NPDES conditional approval was received on September 27, 2021 pending PADEP approval of ACT 537 Sewage Planning Module to help address the local sewage disposal capacity that will be exceeded due to this Project.

#### November 22, 2021 PROJECT STATUS REPORT

and make required project submittals throughout this reporting period for ongoing and upcoming construction activities. To date there have been a total of 916 Contractor RFIs and a total of 1,695 Contractor Submittals. Trumbull and the Construction Manager (Hill/Jacobs) have also been coordinating on the Baseline CPM Schedule progress updates.

During the October reporting period Trumbull continued construction in work areas extending throughout the project limits in order to complete parallel activities on the project. Traffic patterns throughout the Project remained consistent, with no major changes.

In **Pennsylvania**, during the October time period, the Contractor continued with the following roadway and structural construction activities: drainage structures and barrier installation along the median section of I-295 between the Route 332 interchange and the I-295 bridge over Taylorsville Road; final grading and work on the bottom of stormwater retention basin F (south of I-295/West of Taylorsville Road); placement of final pavement surface, striping, and removal of temporary barrier at the south end of the project; infield topsoil grading, seeding and erosion control matting installation; and ITS, ESS and highway lighting at various locations.

Through coordination with the Pennsylvania Department of Conservation and Natural Resources, (DCNR), the Commission has undertaken the final design and construction of a shared-use pedestrian bridge over the Delaware Canal. This bridge will provide the final, dedicated connection from the I-295 Park-and-Ride lot to the Delaware Canal towpath and the Commission's shared-use path over the new Scudder Falls Bridge. The current access requires pedestrians to walk on Woodside Road at its narrowest section. The new bridge will provide safe access to the trail-head 1799 house from the tow path.

Trumbull Corporation has teamed with the engineering firm Alfred Benesch & Company for the final design of the pathways; and CONTECH Engineered Solutions for the design and fabrication of the truss bridge over the canal. During this reporting period, the contractor continued work for the new pedestrian bridge over the canal and the associated pathway, including installation of the new, pre-fabricated bridge.

On September 1<sup>st</sup> and 2<sup>nd</sup> Hurricane Ida dropped heavy rains along the Delaware River up to the New York border resulting in flooding in the Scudder Falls Bridge area. As a result the Pennsylvania wetlands mitigation site was flooded and resulted in failed side slopes and damaged plantings within the wetlands. During this reporting period, Trumbull completed the side slope repairs and began repairs to the stone rip-rap areas within the wetlands site. Trumbull also continued to assess damage to the wetland plants from the storm.

On the **Main River Bridge (MRB)**, during the October period, the work included the following; rubbing/patching of the concrete surfaces at various piers; stripping of deck forms and overhangs at the New Jersey-bound MRB structure; punch list item work; and installation of drainage downspout pipe on the underside of the bridge.

### November 22, 2021 PROJECT STATUS REPORT

On September 1<sup>st</sup> and 2<sup>nd</sup> Hurricane Ida dropped heavy rains along the Delaware River up to the New York border resulting in flooding in the Scudder Falls Bridge area. High river levels topped the work platform, or trestle causeway, in the river. Damage to the platform was significant rendering it unusable without repairs. The River levels detached and/or damaged a large portion of the timber decking. A heavy build-up of debris from up river collected on the platform, which contributed to the damage to the platform structure and deck. During this reporting period, Trumbull performed a successful load test of the damaged trestle and began the necessary repairs/debris removal.
