EXECUTIVE DIRECTORS REPORT

Joseph Resta, Executive Director, addressed the meeting and said;

Good morning, Commissioners. Today's agenda includes resolutions for renewal of certain 2023 health insurance policies for our active employees and eligible retirees. We would ask for support for these health insurance resolutions as the open enrollment period for employees begins in December. These are the first of several resolutions that will be put forth for Commission's consideration in the months of October, November and December as the building blocks for the 2023 operating budget and the 2023, 2024 capital plan come together. In addition, staff has been working for the past months in development of the operating and capital budgets in view of which will begin with Commissioners in the coming weeks. And, as always, we thank our unpaid Commissioners for their time and attention during our budget review cycles. Also, for today's consideration are resolutions for general engineering consultant, facilities task order assignment and construction inspection task order assignment. These contracts are vital to our engineering department's activities as we move to our 2023-2024. In closing, we also have hiring

resolutions for your consideration today. Low unemployment regionally has created a steady turnover of certain positions at the Commission which become more important during the winter season. So, Commissioners, please support these and all resolutions on today's agenda.

Thank you, Mr. Chairman. This concludes my remarks.

- ¹ Construction began in June 2017 under contract T-668A for the Scudder Falls Replacement Bridge. In July 2019, SFB became a Toll Bridge. On August 18, 2021, traffic to New Jersey was shifted from the new upstream bridge to the new downstream bridge. The traffic counter was out of service from 8/18 8/25 until it was relocated to count traffic in the new pattern. Data for this period was interpolated using the average for each day of the week remainder of the month that data was collected. Construction will continue into 2022.
- 2. Contract No. TS-590A NHS TSB Rehabilitation began implementing lane restrictions in February 2022. In Early August lane closings were shifted. Two lanes remain open, one eastbound and one westbound.

IBE PROGRAM OVERVIEW

The Delaware River Joint Toll Bridge Commission (Commission) established an IBE Program (MBE/WBE/SBE/DBE/DsBE/VBE) with a target of 25% for all Professional Services and Construction Contracts awarded by the Commission effective July 1, 2014. To date, the Commission has awarded (74) contracts with the IBE Program requirements. Currently, there are (37) active projects and (37) completed projects.

IBE Program Requirements

The Commission began using Elation Systems effective January 2017, as the online system for Payment Verification and Certified Payroll Reporting (CPR). All contracts awarded by the Commission to a Prime Consultant/Prime Contractor and their Subconsultants and Subcontractors use this service free of charge. Online training is available to vendors on how to use Elation Systems. The Contract Compliance Department and Elation Support Staff are available to assist all users.

The Contract Compliance Department (CCD) monitors, posts and reports data in regards to all payments. The CCD also reviews all Certified Payrolls submitted into Elation Systems.

The following are all mandatory requirements:

Company On-Line Registration:

- i. All Primes must register their company and activate an account in Elation Systems; and
- ii. All Primes must also ensure that all Subconsultants and Subcontractors register their company and activate an account in Elation Systems.

Payment Verification:

- i. Prime Contractors must post all payments to their Subconsultants and/or Subcontractors in Elation Systems; and
- ii. Prime Contractors and their Subconsultants and/or Subcontractors must confirm all payments received in Elation Systems.

Certified Payroll Reporting:

- i. All Prime Contractors are responsible for assigning someone from their staff with the responsibility to review, approve, and upload their CPR(s) on a weekly basis into Elation Systems; and
- ii. All Prime Contractors must also ensure that their Subcontractors upload their CPR(s) on a weekly basis into Elation Systems.

Prime Consultants / Contractors IBE Target performance will be displayed / available on the Commission's public website.

Contract Compliance Department Compliance IBE Scores Overview

The Commission through its Contract Compliance Department has instituted a Compliance Score Ranking that will be included in the Monthly Contract Compliance Report for all Professional Services and Construction Projects.

The Compliance Score Ranking is an ongoing summary of data presented on Active and Completed contracts, which includes the tracking of payments from Prime Consultants and Contractors to IBE Subconsultants and Subcontractors, and the Prime Contractors Workforce Utilization. The Scores will illustrate the progress and participation to meet the Targets by Prime Consultants and Contractors as part of the IBE program.

The complete and timely reporting of payments and certified payrolls to the Elation Systems by the Prime Consultants and Prime Contractors, and their Subconsultants and Subcontractors, will assist the Prime Consultant and Prime Contractor in tracking the data to meet their targets.

Accordingly, each Prime will also be given a final grade at the completion of each project. Additionally, the data will be uploaded onto the Commission's public website on a monthly basis. *The Score(s) are factored using the following criteria:*

IBE PAYMENTS

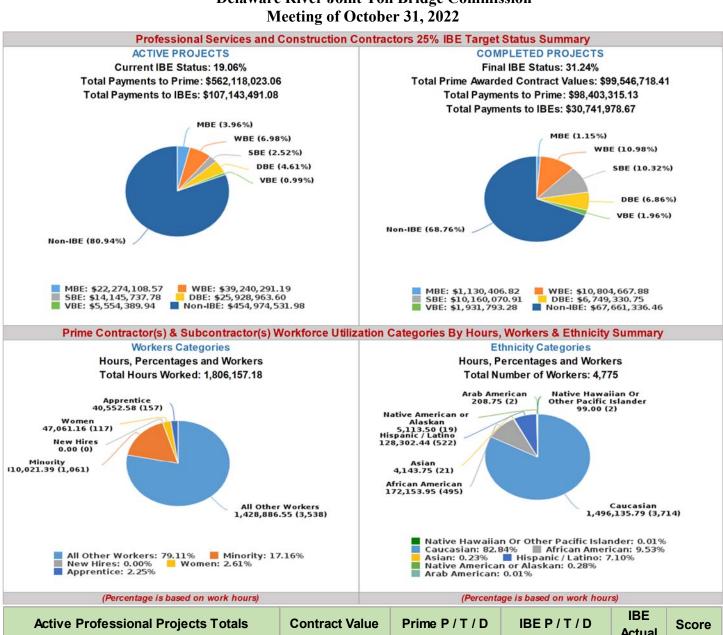

The payments by the Prime Consultant / Contractor to each of their IBE Subconsultants / Subcontractors will be calculated based on the criteria set by the Commission's 25% IBE Target.

WORKFORCE TILIZATION

Workforce utilization contains 2 levels of scoring and documents the hourly employee utilization by workforce type, ethnicity and gender.

MINORITY, WOMEN AND SMALL BUSINESS ENTERPRISE PROGRAM

The Delaware River Joint Toll Bridge Commission implemented a one-year Minority Business Enterprise (MBE) pilot program, with a 7% participation goal, and the Women Business Enterprise (WBE) pilot program with a 3% goal. These goals applied to consultants and contractors' participating in the Commission's Capital Program and were effective on September 1, 2008.

At its December 2008 Commission Meeting, the Commission revised the pilot program to specify a 25% Small Business Enterprise (SBE) goal to New Jersey assigned consultant contracts in lieu of the previously specified 7% MBE and 3% WBE goals.

At its December 2010 Commission Meeting, due to the success of the Commission's MWSBE Pilot Program, the Delaware River Joint Toll Bridge Commission adopted a resolution for permanent status of the Minority Business Enterprise (MBE) program, with a 7% participation goal, and the Women Business Enterprise (WBE) program with a 3% goal, and the Small Business Enterprise (SBE) program with a 25% goal. These goals apply to consultants and contractors' participating in the Commission's Capital Program.

The Contract Compliance Department continues to monitor, update and analyze the payments for the MWSBE diversity program.

<i>b</i>)	No State Assigned Professional Services Contracts:	7% MBE and 3% WBE
c)	Capital Plan Construction Contracts:	7% MBE and 3% WBE

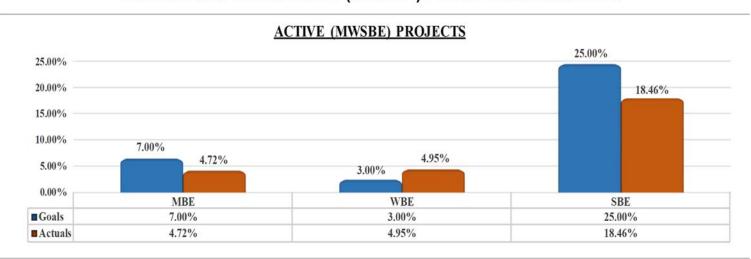

d) NJ Assigned Professional Services Contracts: 25% SBE

Numerous diversified businesses have benefited and continue to benefit from the Commission's previous M/W/SBE Program. The number of Contracts awarded during the MWSBE Program are as follows:

	Active Projects:	5
	Completed Projects:	72
	Total Capital Program Projects:	77
\triangleright	Total Number of Contractors:	180

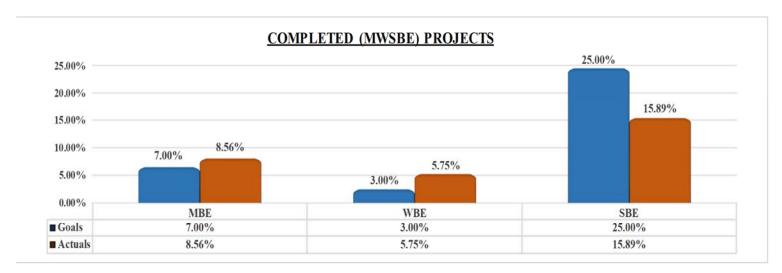

As of July 1, 2014 projects fall into the status now commonly referred to as IBE (Identified Business Enterprise) with a projected target to be or to exceed 25% of the total project award amount.

COMMUNICATIONS REPORT September 2022

• COMMISSION AWARENESS EFFORTS:

2021 Annual Report — Working with Bellevue Communications and its design consultants, the 2021 Annual Report was fully completed and posted on the Commission website. The completion followed a final review and markup, with corrections explained on submitted draft pages. Photo credits and the report index were crafted as a part of this process and submitted to the design team. A Microsoft Teams meeting was further arranged by Bellevue Communications to facilitate closure of the design process. The finalized product features a cover photograph of the fully completed dual-span Scudder Falls Toll Bridge. The report also contains a variety of aerial photographs taken in-house by the Engineering Department's drone operator, Justin R. Bowers. The most significant articles were an expansive account about the Scudder Falls Bridge Replacement Project's attainment of "substantial completion" and an overview of the 2021 toll rate adjustment process. The report is accessible from the "About" section of the Commission's public website, www.drjtbc.org.

Release of Digitized Film Footage Showing Former Covered Bridge Demolition – Uploaded and posted on the Bridge Commission's YouTube channel a digitized film footage of the 1933 demolition of the former wooden covered bridge between Upper Black Eddy, PA. and Milford, N.J. Drafted introductory text and disclaimer information regarding Commission's ownership of the video contents. Worked with Alex Styer of Bellevue Communications to format the video. A detailed press release explaining the film footage was issued and generated some articles. Much of the interest, however, was via social media postings on Facebook. As of early October, the film footage has generated over 1,400 viewings and a few shares on social media sites. The plan is to periodically release other digitize film footage that has been kept for decades in engineering department file cabinets.

Uniform Bridge Drawings Project – All requested changes to submitted single-truss and multi-truss images were made by artist Vicki Dodson. W. Michael Cane was integral to this process. This project has been completed and the Commission now has a library of uniform non-technical bridge drawings for use by all departments going forward. The images can be used to enhance annual reports, the website, individual bridge projects, and other communications.

Community Affairs Report September 2022

The following Community Affairs activities took place during September 2022:

Scudder Falls Bridge Replacement Project- Public Involvement

Very few public comments or questions now that project is well past substantial completion; only a couple of inquiries related to the traffic lights timing on Taylorsville Road. We occasionally received questions about the short duration of the left-turn signal from southbound Taylorsville Road to Woodside Road.

Worked with Michael Schermerhorn of Southern Region Maintenance to create template for state line designation on the shared use path, and new suicide prevention signs with the new national three-digit hotline number.

Northampton Street Toll Supported Bridge Rehabilitation Project

Attended bi-weekly construction progress meetings, providing the contractors with information on upcoming local special events. Received occasion calls from neighboring property owners and relayed concerns to construction management team. A request from Bacon Fest organizers to hang a banner on the bridge was denied.

Weight-Restriction Signage

Received information from staff at Riverton-Belvidere Toll-Supported Bridge regarding the possibility of commercial GPS programs directing trucks over that bridge and discussed with Central Region Bridge Security Manager Ralph Reppert. Reached out to trucking industry professionals to ascertain which GPS programs are commonly used. Will continue to investigate if Riverton-Belvidere is included on routes and how to correct.

"Trenton Makes" sign lighting

Coordinated requests for light shows with technical assistance from Justin Bowers in the Engineering Department. Shows for September included awareness campaigns for ovarian Cancer/PCOS, alopecia areata, pulmonary fibrosis, lymphoma, and NICU and Delta Sigma Theta anniversary. Shows scheduled for October include awareness campaigns for breast cancer, metastatic breast cancer, dyslexia, developmental language disorder, Hispanic heritage, Columbus Day and Halloween. Default color is still blue and yellow in support Ukraine.

There was a glitch in the programming a few times in September. Justin Bowers worked with the software company to address the issue and it appears to be corrected.

Centre Bridge-Stockton Toll-Supported Bridge

Received follow up call from a neighboring property owner regarding the newly installed traffic control lights. He feels the lights are bothersome to residents and ineffective.

Preservation of Archival material

Continued to scan/digitizing old photos and negatives from the Commission Archives.

Commission in-house publications

Completed and distributed the summer River Currents employee newsletter; began collecting content for the fall issue. Began work on the 2023 Commission calendar.

Various Community Affairs activities

Handled a wide assortment of community affairs tasks during the months, including:

- O Coordinated with E-ZPass Department staff regarding various customer questions, including dismissal of toll charges to a local fire company
- o Assisted with various Use of Facilities requests
- Assisted the Communications Department with the proofreading of various news releases and editing of various images
- o Fielded request from neighboring property owner at NH-L Route 202 (Holcombe Farmstead) regarding dead/dying trees on property line; referred to and handled by Regional Maintenance Supervisor Charles Slack

This contract is for Preliminary, Final and Post-Design Services for space utilization improvements at New Hope Lambertville Toll Bridge Executive Headquarters and the demolition and reconstruction of the Trenton Morrisville Toll Bridge Administration Building as identified under a Task Order Assignment for Space Utilization Program and Concept Study.

In accordance with the Commission's February 26, 2018 Regular Monthly Commission Meeting, this Contract was awarded to Gannett Fleming, Architects Inc. (GF). Accordingly; a Notice of Award and Limited Notice to Proceed was issued to GF effective February 27, 2018.

A Kick-Off Meeting was conducted with GF on March 20, 2018. GF is currently coordinating with all public utilities, completed the Boundary & Topographic surveys, Space Utilization Program to address the Commission's current operations and anticipated needs in the foreseeable future as well as Final Design. A Concept Design and preliminary Phasing options were submitted and presented to the Commission on 10/28/19 with an advance Contract T-730A that covers Trenton Morrisville's salt and fueling operation's needs. The purpose of this advance Contract T-730A was to complete the new salt operation at this location and have it fully operational for the winter of 2020-2021. This was being planned to take place prior to the demolition of the existing building together with the current salt operation. The second Contract T-519A was publicly bid on April 12, 2021 to cover the construction of the balance of the Southern Operations & Maintenance needs in a multi-phased construction.

An NPDES permit Pre-Application meeting was held with Bucks County Soil Conservation on September 26, 2019 in connection with the Southern Operations Facility intended to be built at Morrisville, NPDES and Erosion & Sediment Control permits were submitted on December 4, 2019 and both approvals were obtained on March 18, 2020. In addition; building systems phasing coordination meetings were conducted on 11/25/19, 12/6/19 and 12/18/19. Electronic Bids for Contract T-730A were received on March 5, 2020, Construction Contract award was made to the apparent Low Bidder's, Bracy Construction, Inc. at the April 27th Regular Monthly Meeting, Construction was substantially completed on November 6, 2020 and Project was completed on November 20, 2020 on schedule under budget. October 31, 2022 PROJECT STATUS REPORT

In connection with Resolution No. 4076-12-18 and the new real estate property acquisition at Langhorne to house the Commission's Southern Maintenance Facility; GF completed the Boundary and Topographic Land Surveys necessary for Lot Consolidation in Bucks County, Environmental Assessment Phase I and Phase II.

A second advanced Final Design submission was made by GF on 12/2/19 for the Langhorne Site to implement the environmental remediation as listed in the Phase II report, demolition of ten (10) existing buildings and secure the site with perimeter fencing. Using one of the Commission's standing Job Order Contractor RCC Builders Contract TTS-737A-2 was executed January 22, 2020. GF provided Post Design services through-out construction and this Project was closed June 15, 2020.

As part of an NPDES permit application process for this site, screening for suspected Bog Turtles and other federally endangered species was made on June 14th, 2019 by the US Army Corp. of Engineers (ACOE) and found that the Project site does not include a Bog Turtle Habitat. In light of these results an environmental permitting pre-application meeting were held on June 20th 2019 and January 23, 2020 with PADEP in attendance together with the US Army Corps of Engineers as relates to a joint permit for wetland and storm water impact and mitigation at this Langhorne site. Also; as a pre-requisite to obtain NPDES permit approval, a SHPO survey was made and a determination that there are no historic properties exist on site was obtained on March 24, 2020. In addition; ACOE conducted a survey on March 16th, 2020 and determined that none of their jurisdictional waters or wetlands exist on this site. Furthermore; the ACOE biologist who provided this survey agreed that the pond that exists on-site is man-made and therefore is not considered jurisdictional based on his field inspection. Additionally; two state identified endangered species were identified by the Pennsylvania Natural Diversity Inventory (PNDI) to potentially exist onsite. The design team initiated field surveys on March 13th, 2020 and field traps were placed to determine if their habitat exists within the project limits to develop a mitigation plan. Survey concluded and PNDI concurred on September 9th, 2020 that none exists within the Commission's property.

A request for site Access Easement to Big Oak Road through PECO's neighboring property was made on November 1st, 2019, conditional approval was received, and an easement agreement has been received from PECO. GF prepared the Legal Description and Plot Plan and Commission's Real Estate Counsels filed this easement with the County's Clerk's Office.

A General Permit GP-7 for minor wetland crossing was submitted on November 4, 2020 and an approval was received from PA DEP on December 22, 2020.

A Bucks County Soil Erosion and Sediment Control (SE&SC) Permit was submitted together with an NPDES Permit on August 24, 2020 and an SE&SC permit approval was received April 23, 2021. NPDES conditional approval was received on September 27, 2021 pending PADEP approval of ACT 537 Sewage Planning Module which was received November 15, 2021 to address the local sewage disposal capacity that will be exceeded due to this Project.
