EXECUTIVE DIRECTORS REPORT

Joseph Resta, Executive Director, addressed the meeting and said;

Good morning Commissioners, it was the September 2021 Commission Meeting that Commissioners passed the resolutions for the Northampton Street Toll-Supported Bridge Rehabilitation Project. This rehabilitation recognizes the historic nature of the bridge and its importance to the communities that it serves. The Commission is making steady progress on this project and has worked with both Phillipsburg and Easton in traffic mitigation measures during construction.

The Milford-Montague Toll Bridge paving rehabilitation project is underway, the first phase of which should be completed by year's end with the remainder of the project in 2023.

Meeting of September 19, 2022

Southern Regional Operations facilities projects in both Morrisville and Langhorne are also progressing; with the Morrisville site in preparation for temporary facilities for our toll personnel while demolition gets underway in the coming months. The Langhorne site is completely out of the ground and preparing for use of the salt facility at the site to be operational for this winter season, and the remainder of the facility to be completed in 2023.

Commissioners, please support the resolutions on today's agenda for the various Operations positions. Filling these positions is important, as the focus of the last quarter of our public meeting schedule routinely contains the components of our 2023 budgets, including business and health insurance presentations.

Thank you, Commissioners, this concludes my comments for today

Meeting of September 19, 2022

SCHEDULING OF THE OCTOBER 31, 2022 MEETING.

Executive Director Resta addressed the Meeting and stated that the Commission's next meeting is scheduled to be held Monday, October 31, 2022.

This meeting will be called to Order at 10:30 a.m. at the Scudder Falls Administration Building, 1199 Woodside Road, Yardley, PA 19067.

Executive Director Resta assured the Commission Members that an "Official Notice of Meeting" would be forwarded to each and every Member of the Commission.

Chairman Komjathy addressed the meeting and said;

Joe, if I can, I would like to have all the Commissioners, if they can, appear at next month's meeting because I think we want to take a picture of the entire board, and it's been a while since we have all been face to face. So, if it works for everybody, I would like everybody down here that day.

Executive Director Resta addressed the meeting and said;

Thank you, Chairman. Any further comment?

Vice Chair Janvey addressed the meeting and said;

Again, I must comment on the E-Z Pass penetration rate. They just keep amazing me. They keep going up and up and up.

Executive Director Resta addressed the meeting and said;

Yes, they do.

Vice Chair Janvey addressed the meeting and said;

I think the lowest is 83, 84 percent the lowest.

Executive Director Resta addressed the meeting and said;

We are averaging around 87 percent.

Chairman Komjathy addressed the meeting and said;

I would like to also let the board know and, again, I said it during the executive meeting last week how much I appreciate the staff putting the time and effort in to get this Trenton Morrisville and E-Z Pass issue resolved. I know that it's been a little bit of a mess and the Commission took a little bit of a hit, but I think once we realized, you know, what had happened to us it happened

Meeting of September 19, 2022

and we were able to find out and try and get it cleared up, so there was a lot of time and effort over July and August into September trying to get it resolved. So I really want to thank the staff and the folks that worked to get this thing squared away.

Executive Director Resta addressed the meeting and said;

Thank you, Mr. Chairman. The retroactive adjustments to customers' accounts is nearly complete. We are through all the home agency accounts which is any of the agencies in connection with the New Jersey E-Z Pass Group, and we are through many of the away agency accounts. There are just maybe one or two that are still in process. We are pretty much through the adjustment for folks' accounts with that issue at lane four at Trenton Morrisville.

Chairman Komjathy addressed the meeting and said;

And I think we found out it was a truck that was carrying crushed cars that sort of when it went under the toll plaza sort of knocked it out of whack.

Executive Director Resta addressed the meeting and said;

It was many trucks like that, and we have used our partners in the state police to conduct truck inspections in that area over various days and it's been very fruitful. We also have our director of community affairs contacting the recycling companies in the area to make them mindful of the loads that they cross our bridges with.

Meeting of September 19, 2022

ADJOURNMENT

Commissioner Lavery then moved that the Meeting be adjourned, and Commissioner Christy seconded the motion. The voice vote was unanimously affirmative, and the Meeting was adjourned at 11:06 am, Monday, September 19, 2022.

NOTES:

¹ Construction began in June 2017 under contract T-668A for the Scudder Falls Replacement Bridge. In July 2019, SFB became a Toll Bridge. On August 18, 2021, traffic to New Jersey was shifted from the new upstream bridge to the new downstream bridge. The traffic counter was out of service from 8/18 - 8/25 until it was relocated to count traffic in the new pattern. Data for this period was interpolated using the average for each day of the week remainder of the month that data was collected. Construction will continue into 2022.

ELECTRONIC TOLL COLLECTION PROGRAM MONTH OF JULY AND AUGUST 2022

The following items were recently initiated, accomplished or performed during the above noted month:

Activities for the In-Lane Toll System

- 1. TransCore issued toll adjustment files to Conduent (NJ E-ZPass CSC) adjusting transactions that occurred at the Trenton-Morrisville Toll Bridge, Lane 4 from February 1, 2022 through July 7, 2022. These adjustments were for Class 1 vehicles that were incorrectly classified as a Class 2 vehicle due to malfunctioning overhead tolling equipment that was damaged from multiple vehicle strikes during this period.
- 2. TransCore has begun a lane-by-lane check of the overhead vehicle profiling units for alignments and configurations, starting with the Delaware Water Gap (I-80) Toll Bridge. One finding at that bridge was the discovery of a significant spider infestation. Spider webs could impair tolling equipment, vehicle classifications and toll collections. An exterminator subsequently was hired to spray the canopy to combat the infestation. The technicians next completed an equipment check at the Scudder Falls Toll Bridge and will continue to check all lanes.
- 3. To detect any glaring transaction issues, TransCore technicians have added an evening review of transactions in addition to their morning review.
- 4. TransCore also is coordinating with Commission staff for a software build. The latest software build includes improved vehicle classification and over-height reporting. The software build is tentatively scheduled for September 2022, but needs to go through a release/testing process before being implemented at all Commission toll facilities.
- 5. TransCore submitted the operational test that is required from transitioning the electronic toll collection system from the interim configuration to the final configuration at the Scudder Falls Toll Bridge. Review comments were addressed and the final document was received.
- 6. TransCore is coordinating the relocation of the bridge host and all cabling to the lane controllers for the Southern Operations and Maintenance Facilities Improvements project. On site work will begin once the demarcation building is available.

7. Commission Staff and TransCore meet monthly to review and discuss system operational and maintenance items. A weekly call also takes placed to briefly review system maintenance items for the week.

Activities for the E-ZPass Customer Service Center/Violation Processing Center

- 1. Conduent received toll adjustment files from TransCore adjusting transactions that occurred at the Trenton-Morrisville Toll Bridge, Lane 4 from February 1, 2022 through July 7, 2022. These adjustments were for Class 1 vehicles that were incorrectly classified as a Class 2 vehicle due to malfunctioning overhead tolling equipment that was damaged from multiple vehicle strikes during this period.
- 2. Because of the trailer strikes that occurred in TM Lane 4, the Commission has requested PA State Police, under its Commission' agreement, to increase the presence of patrol units at the T-M Toll Bridge. Additionally, we will attempt to contact the local salvage yard in an effort to reduce the equipment strikes by the trailers that are hauling crushed cars.
- 3. Commission staff requested a proposal from Conduent to adjust the pay-by-plate process that allows for making toll adjustments for super-load vehicles when crossing the Scudder Falls Toll Bridge in the toll direction. These vehicles often have atypical configurations that do not allow for the correct vehicle classification, requiring intervention by Commission Staff to adjust the toll amount prior to the issuance of a toll-by-plate invoice.
- 4. The New Jersey Turnpike Authority (NJTA), as the lead agency, is facilitating all meetings with the other agencies and Conduent to manage the implementation of outstanding system elements for the New Jersey E-ZPass Customer Service Center. Commission Staff met with Conduent to discuss a need to adjust toll transactions for super load vehicles when the vehicle is misclassified by the in-lane toll system. Conduent is reviewing the requirements and will respond with potential options.

General Electronic Toll Collection Program Activities

- 1. Mr. Stracciolini participated in the IAG E-ZPass Executive Management Committee meeting and Policy Committee meetings. At the August 2021 IAG EMC Meeting, Mr. Stracciolini was elected by the members to serve as Vice Chair to the EMC.
- 2. Mr. Stracciolini is participating in the Non-toll Business Opportunity Task Force and Protocol Planning Working Group.

- 3. Mr. Stracciolini is serving on the International Bridge, Tunnel & Turnpike Association's (IBTTA) 2022 Emerging Technologies & Engineering and Construction Task Forces. He is also serving on the Annual Meeting Planning Group.
- 4. Mr. Stracciolini prepared a request for proposals (RFP) for the IAG to issue for their procurement of an IAG Service Corporation Task Order Assignment Consultant. The RFP was advertised. Mr. Stracciolini facilitated a pre-proposal meeting and developed Addendum No. 1 to the RFP that responds to questions from potential proposers. Proposals are due in September 2022.

IBE PROGRAM OVERVIEW

The Delaware River Joint Toll Bridge Commission (Commission) established an IBE Program (MBE/WBE/SBE/DBE/DsBE/VBE) with a target of 25% for all Professional Services and Construction Contracts awarded by the Commission effective July 1, 2014. To date, the Commission has awarded (74) contracts with the IBE Program requirements. Currently, there are (37) active projects and (37) completed projects.

IBE Program Requirements

The Commission began using Elation Systems effective January 2017, as the online system for Payment Verification and Certified Payroll Reporting (CPR). All contracts awarded by the Commission to a Prime Consultant/Prime Contractor and their Subconsultants and Subcontractors use this service free of charge. Online training is available to vendors on how to use Elation Systems. The Contract Compliance Department and Elation Support Staff are available to assist all users.

The Contract Compliance Department (CCD) monitors, posts and reports data in regards to all payments. The CCD also reviews all Certified Payrolls submitted into Elation Systems.

The following are all mandatory requirements:

Company On-Line Registration:

- i. All Primes must register their company and activate an account in Elation Systems; and
- ii. All Primes must also ensure that all Subconsultants and Subcontractors register their company and activate an account in Elation Systems.

Payment Verification:

- i. Prime Contractors must post all payments to their Subconsultants and/or Subcontractors in Elation Systems; and
- ii. Prime Contractors and their Subconsultants and/or Subcontractors must confirm all payments received in Elation Systems.

Certified Payroll Reporting:

- i. All Prime Contractors are responsible for assigning someone from their staff with the responsibility to review, approve, and upload their CPR(s) on a weekly basis into Elation Systems; and
- ii. All Prime Contractors must also ensure that their Subcontractors upload their CPR(s) on a weekly basis into Elation Systems.

Prime Consultants / Contractors IBE Target performance will be displayed / available on the Commission's public website.

Contract Compliance Department Compliance IBE Scores Overview

The Commission through its Contract Compliance Department has instituted a Compliance Score Ranking that will be included in the Monthly Contract Compliance Report for all Professional Services and Construction Projects.

The Compliance Score Ranking is an ongoing summary of data presented on Active and Completed contracts, which includes the tracking of payments from Prime Consultants and Contractors to IBE Subconsultants and Subcontractors, and the Prime Contractors Workforce Utilization. The Scores will illustrate the progress and participation to meet the Targets by Prime Consultants and Contractors as part of the IBE program.

The complete and timely reporting of payments and certified payrolls to the Elation Systems by the Prime Consultants and Prime Contractors, and their Subconsultants and Subcontractors, will assist the Prime Consultant and Prime Contractor in tracking the data to meet their targets.

Accordingly, each Prime will also be given a final grade at the completion of each project. Additionally, the data will be uploaded onto the Commission's public website on a monthly basis. *The Score(s) are factored using the following criteria:*

IBE PAYMENTS

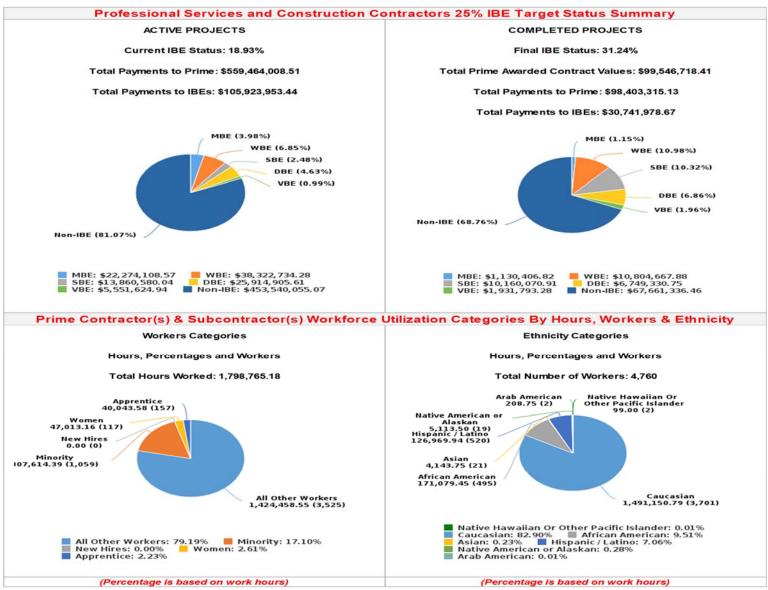

The payments by the Prime Consultant / Contractor to each of their IBE Subconsultants / Subcontractors will be calculated based on the criteria set by the Commission's 25% IBE Target.

WORKFORCE TILIZATION

Workforce utilization contains 2 levels of scoring and documents the hourly employee utilization by workforce type, ethnicity and gender.

MINORITY, WOMEN AND SMALL BUSINESS ENTERPRISE PROGRAM

The Delaware River Joint Toll Bridge Commission implemented a one-year Minority Business Enterprise (MBE) pilot program, with a 7% participation goal, and the Women Business Enterprise (WBE) pilot program with a 3% goal. These goals applied to consultants and contractors' participating in the Commission's Capital Program and were effective on September 1, 2008.

At its December 2008 Commission Meeting, the Commission revised the pilot program to specify a 25% Small Business Enterprise (SBE) goal to New Jersey assigned consultant contracts in lieu of the previously specified 7% MBE and 3% WBE goals.

At its December 2010 Commission Meeting, due to the success of the Commission's MWSBE Pilot Program, the Delaware River Joint Toll Bridge Commission adopted a resolution for permanent status of the Minority Business Enterprise (MBE) program, with a 7% participation goal, and the Women Business Enterprise (WBE) program with a 3% goal, and the Small Business Enterprise (SBE) program with a 25% goal. These goals apply to consultants and contractors' participating in the Commission's Capital Program.

The Contract Compliance Department continues to monitor, update and analyze the payments for the MWSBE diversity program.

A Kick-Off Meeting was conducted with GF on March 20, 2018. GF is currently coordinating with all public utilities, completed the Boundary & Topographic surveys, Space Utilization Program to address the Commission's current operations and anticipated needs in the foreseeable future as well as Final Design. A Concept Design and preliminary Phasing options were submitted and presented to the Commission on 10/28/19 with an advance Contract T-730A that covers Trenton Morrisville's salt and fueling operation's needs. The purpose of this advance Contract T-730A was to complete the new salt operation at this location and have it fully operational for the winter of 2020-2021. This was being planned to take place prior to the demolition of the existing building together with the current salt operation. The second Contract T-519A was publicly bid on April 12, 2021 to cover the construction of the balance of the Southern Operations & Maintenance needs in a multi-phased construction.

An NPDES permit Pre-Application meeting was held with Bucks County Soil Conservation on September 26, 2019 in connection with the Southern Operations Facility intended to be built at Morrisville, NPDES and Erosion & Sediment Control permits were submitted on December 4, 2019 and both approvals were obtained on March 18, 2020. In addition; building systems phasing coordination meetings were conducted on 11/25/19, 12/6/19 and 12/18/19. Boundary and Topographic Land Surveys necessary for Lot Consolidation in Bucks County, Environmental Assessment Phase I and Phase II.

A second advanced Final Design submission was made by GF on 12/2/19 for the Langhorne Site to implement the environmental remediation as listed in the Phase II report, demolition of ten (10) existing buildings and secure the site with perimeter fencing. Using one of the Commission's standing Job Order Contractor RCC Builders Contract TTS-737A-2 was executed January 22, 2020. GF provided Post Design services through-out construction and this Project was closed June 15, 2020.

As part of an NPDES permit application process for this site, screening for suspected Bog Turtles and other federally endangered species was made on June 14th, 2019 by the US Army Corp. of Engineers (ACOE) and found that the Project site does not include a Bog Turtle Habitat. In light of these results an environmental permitting pre-application meeting were held on June 20th 2019 and January 23, 2020 with PADEP in attendance together with the US Army Corps of Engineers as relates to a joint permit for wetland and storm water impact and mitigation at this Langhorne site. Also; as a pre-requisite to obtain NPDES permit approval, a SHPO survey was made and a determination that there are no historic properties exist on site was obtained on March 24, 2020. In addition; ACOE conducted a survey on March 16th, 2020 and determined that none of their jurisdictional waters or wetlands exist on this site. Furthermore; the ACOE biologist who provided this survey agreed that the pond that exists on-site is man-made and therefore is not considered jurisdictional based on his field inspection. Additionally; two state identified endangered species were identified by the Pennsylvania Natural Diversity Inventory (PNDI) to potentially exist onsite. The design team initiated field surveys on March 13th, 2020 and field traps were placed to determine if their habitat exists within the project limits to develop a mitigation plan. Survey concluded and PNDI concurred on September 9th, 2020 that none exists within the Commission's property.

A request for site Access Easement to Big Oak Road through PECO's neighboring property was made on November 1st, 2019, conditional approval was received, and an easement agreement has been received from PECO. GF prepared the Legal Description and Plot Plan and Commission's Real Estate Counsels filed this easement with the County's Clerk's Office.

A General Permit GP-7 for minor wetland crossing was submitted on November 4, 2020 and an approval was received from PA DEP on December 22, 2020.

A Bucks County Soil Erosion and Sediment Control (SE&SC) Permit was submitted together with an NPDES Permit on August 24, 2020 and an SE&SC permit approval was received April 23, 2021. NPDES conditional approval was received on September 27, 2021 pending PADEP approval of ACT 537 Sewage Planning Module which was received November 15, 2021 to address the local sewage disposal capacity that will be exceeded due to this Project.

Constructability, Peer and Code review meetings were conducted on February 18, February 19 and February 24, 2021. Final Design submission and Bid Documents were received on April 9, 2021. Project public bid advertisement was made on April 12, 2021, virtual Pre-Bid meeting and site visits were made on April 19 and April 29, 2021 and electronic Bid Opening was

ELECTRONIC TOLL COLLECTION

Customer Service Center/Violation Processing Center Project Contract No. DB-584A

September 19, 2022 PROJECT STATUS REPORT

(CAS/KMS)

Conduent received toll adjustment files from TransCore adjusting transactions that occurred at the Trenton-Morrisville Toll Bridge, Lane 4 from February 1, 2022 through July 7, 2022. These adjustments were for Class 1 vehicles that were incorrectly classified as a Class 2 vehicle due to malfunctioning overhead tolling equipment that was damaged from multiple vehicle strikes during this period.

Because of the trailer strikes that occurred in TM Lane 4, the Commission has requested PA State Police, under its Commission' agreement, to increase the presence of patrol units at the T-M Toll Bridge. Additionally, we will attempt to contact the local salvage yard in an effort to reduce the equipment strikes by the trailers that are hauling crushed cars.

Commission staff requested a proposal from Conduent to adjust the pay-by-plate process that allows for making toll adjustments for super-load vehicles when crossing the Scudder Falls Toll Bridge in the toll direction. These vehicles often have atypical configurations that do not allow for the correct vehicle classification, requiring intervention by Commission Staff to adjust the toll amount prior to the issuance of a toll-by-plate invoice.

The New Jersey Turnpike Authority (NJTA), as the lead agency, is facilitating all meetings with the other agencies and Conduent to manage the implementation of outstanding system elements for the New Jersey E-ZPass Customer Service Center. Commission Staff met with Conduent to discuss a need to adjust toll transactions for super load vehicles when the vehicle is misclassified by the in-lane toll system. Conduent is reviewing the requirements and will respond with potential options.

New Hope-Lambertville and Easton-Phillipsburg Toll Bridge Sign Task Order Assignment No. C-728A-5 (CAS/KMS)

A task order assignment was executed for RK&K to prepare plans and specification for the replacement of two (2) overhead roadway sign panels required as a result of the recent toll adjustment. One panel is located on the New Hope – Lambertville Toll Bridge and the other is located on the Easton – Phillipsburg Toll Bridge. Both signs are over the westbound travel lanes in advance of the toll plazas.

RK&K provided the final conformed plans and specifications.

Under the Commission's Job Order Contract agreement, Mount Construction completed this work. Upon receipt and processing of the final invoice, this Task Order Assignment will be closed out.

ELECTRONIC TOLL COLLECTION SYSTEM REPLACEMENT

Design, Build and Maintain

September 19, 2022 PROJECT STATUS REPORT

Contract No. DB-540A (CAS/KMS)

TransCore issued toll adjustment files to Conduent (NJ E-ZPass CSC) adjusting transactions that occurred at the Trenton-Morrisville Toll Bridge, Lane 4 from February 1, 2022 through July 7, 2022. These adjustments were for Class 1 vehicles that were incorrectly classified as a Class 2 vehicle due to malfunctioning overhead tolling equipment that was damaged from multiple vehicle strikes during this period.

TransCore has begun a lane-by-lane check of the overhead vehicle profiling units for alignments and configurations, starting with the Delaware Water Gap (I-80) Toll Bridge. One initial finding at that bridge was the discovery of a significant spider infestation. Spider webs could impair tolling equipment, vehicle classifications and toll collections. An exterminator subsequently was hired to spray the canopy to combat the infestation. The technicians next completed an equipment check at the Scudder Falls Toll Bridge and will continue to check all lanes.

To detect any glaring transaction issues, TransCore technicians have added an evening review of transactions in addition to their morning review.

TransCore also is coordinating with Commission staff for a software build. The latest software build includes improved vehicle classification and over-height reporting. The software build is tentatively scheduled for September 2022 but needs to go through a release/testing process before being implemented at all Commission toll facilities.

TransCore submitted the operational test that is required from transitioning the electronic toll collection system from the interim configuration to the final configuration at the Scudder Falls Toll Bridge. Review comments were addressed, and the final document was received.

TransCore is coordinating the relocation of the bridge host and all cabling to the lane controllers for the Southern Operations and Maintenance Facilities Improvements project. On site work will begin once the demarcation building is available.

Commission Staff and TransCore meet monthly to review and discuss system operational and maintenance items. A weekly call also takes placed to briefly review system maintenance items for the week.
